

Unified Railway Law

Session III - Operational connectivity for integrated intermodal transport and logistics

Forum on Sustainable Transport
Connectivity between Europe and Asia

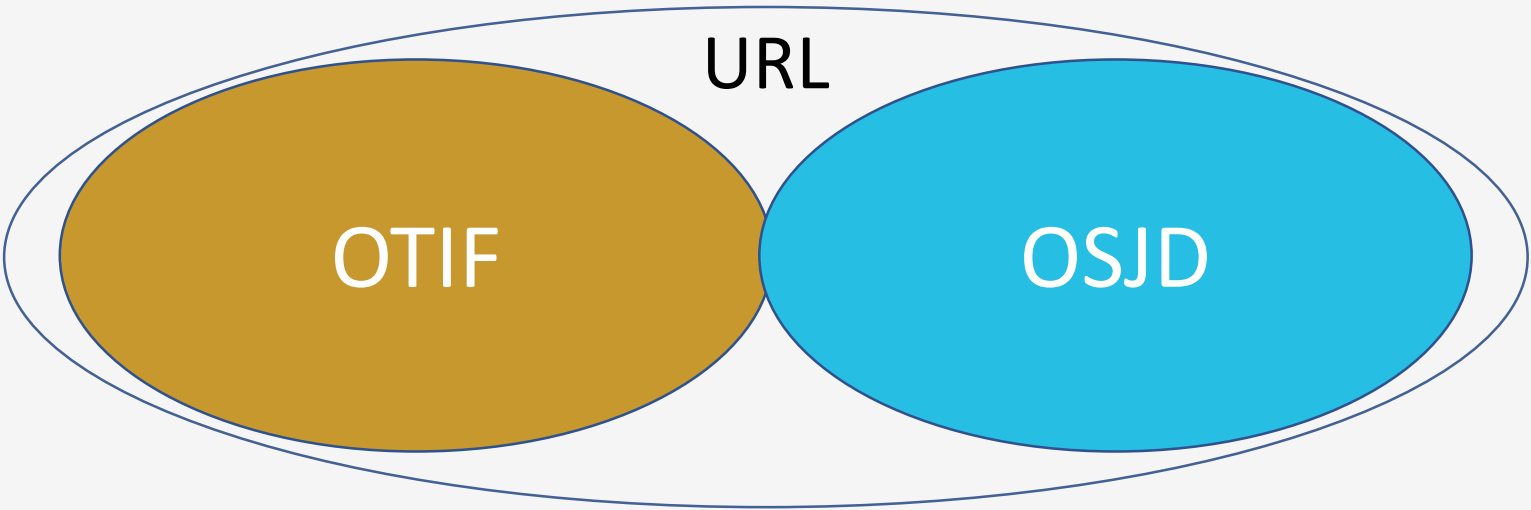

UNECE

Unified Railway Law (URL)

objective

- Establish laws to regulate interregional/intercontinental rail traffic and operations

Unified Railway Law (URL)

status of work

- Advanced work on provisions for contract for carriage of goods by rail (one contract – consignment note, one liability regime)
- Discussion on setting up URL – system of URL legal instruments with contract for carriage of goods to constitute first legal instrument
- Group of Experts on URL expected to continue in 2020 – countries from along the Euro-Asian rail corridors invited to join discussions to work out most demanded outcomes

Thank you!

Lukasz Wyrowski
Secretary, EGURL
