

# Proposal for amendments to Annex 6, UN Regulation No. 0 on IWVTA (Draft 02 series of amendments)

## I. Introduction

At the last IWVTA IWG meeting in March 2019, DETA IWG proposed some amendments to Annex 6 “Specifications of the IWVTA DoC” of UN Regulation No.0. Square brackets are placed where agreement was not reached yet at the IWVTA IWG. Also between square brackets one additional item concerning paragraph 2.2 that was raised at the 15-16 April DETA session.

## II. Proposal

*Annex 6, Paragraph 2.2.*, amend to read:

“2.2 The manufacturer shall provide and upload into the UN secure internet database for each single vehicle produced in conformance with an IWVTA all information described in paragraph 1.1 necessary to generate the DoC, including:

2.2.1. The information for the identification of a single vehicle (normally the VIN);

2.2.2. The type approval number of the IWVTA which covers this vehicle.”

Justification: The original text of paragraph 2.2. requires the manufacturer to provide and upload the VIN and IWVTA type approval number. However, for generating the DoC, more information is necessary, as mentioned in paragraph 1.1.b (the statement of conformance, Appendix 1) and 1.1.c (the list detailing the UN Regulations to which the IWVTA type is approved, Appendix 2). The contradictory text of paragraphs 1.1. and 2.2. lead to misunderstandings. The proposed amendment is intended to clarify this.

*Annex 6, Paragraph 2.4.*, amend to read:

“2.4 The UN secure internet database allows for a query from any authorized party to generate a DoC for a single vehicle based on the VIN type approval number that is linked to that single vehicle as specified in paragraph 2.2. of this annex.”

Justification: The Conformance list (Annex 6 Appendix 2) is unique for each type approval number and can be viewed by a query based on the type approval number. But as the DoC is for a single vehicle and because the VIN need to be shown on the DoC form (Annex 6 Appendix 1 item 0.10.) the VIN need to be entered for each DoC.

Annex 6 – Appendix 1, amend to read:

**“Declaration form for the IWVTA Declaration of Conformance ~~for vehicles of category M1~~**

The manufacturer hereby certifies that the vehicles:

0.2. IWVTA class:

0.2.0. IWVTA type:

0.4. Vehicle category:

0.5. Name of manufacturer:

0.10. Vehicle Identification Number:

conforms in all respects to the type described in approval .....<sup>1</sup>

issued on .....<sup>2</sup> and that this IWVTA type is approved according to the UN Regulations as listed in this document.

The detailed information about the manufacturer may be obtained from the type approval authority.”

Justification: R0 currently applies to M1 only. In case of future amendment of R0 for other categories, the category is indicated in item 0.4. anyway. Therefore the reference to M1 in the heading is superfluous.

DoC means the information for a single vehicle (a single VIN). Therefore “vehicles” shall be singular “vehicle”.

Annex 6 – Appendix 2, amend to read:

**“Conformance List**

List of requirements according to which the IWVTA type is approved

<i>UN Regulation No.</i>	<i>Series of amendments No.</i>

“

Justification: The first column “Number” of the Annex 6 Appendix 2 “Conformance list” is unnecessary and can be deleted.
