TIR Convention – open for intermodal transport operations

- Since 1949
- Open for intermodal transport since 1975

Intermodal TIR transport –

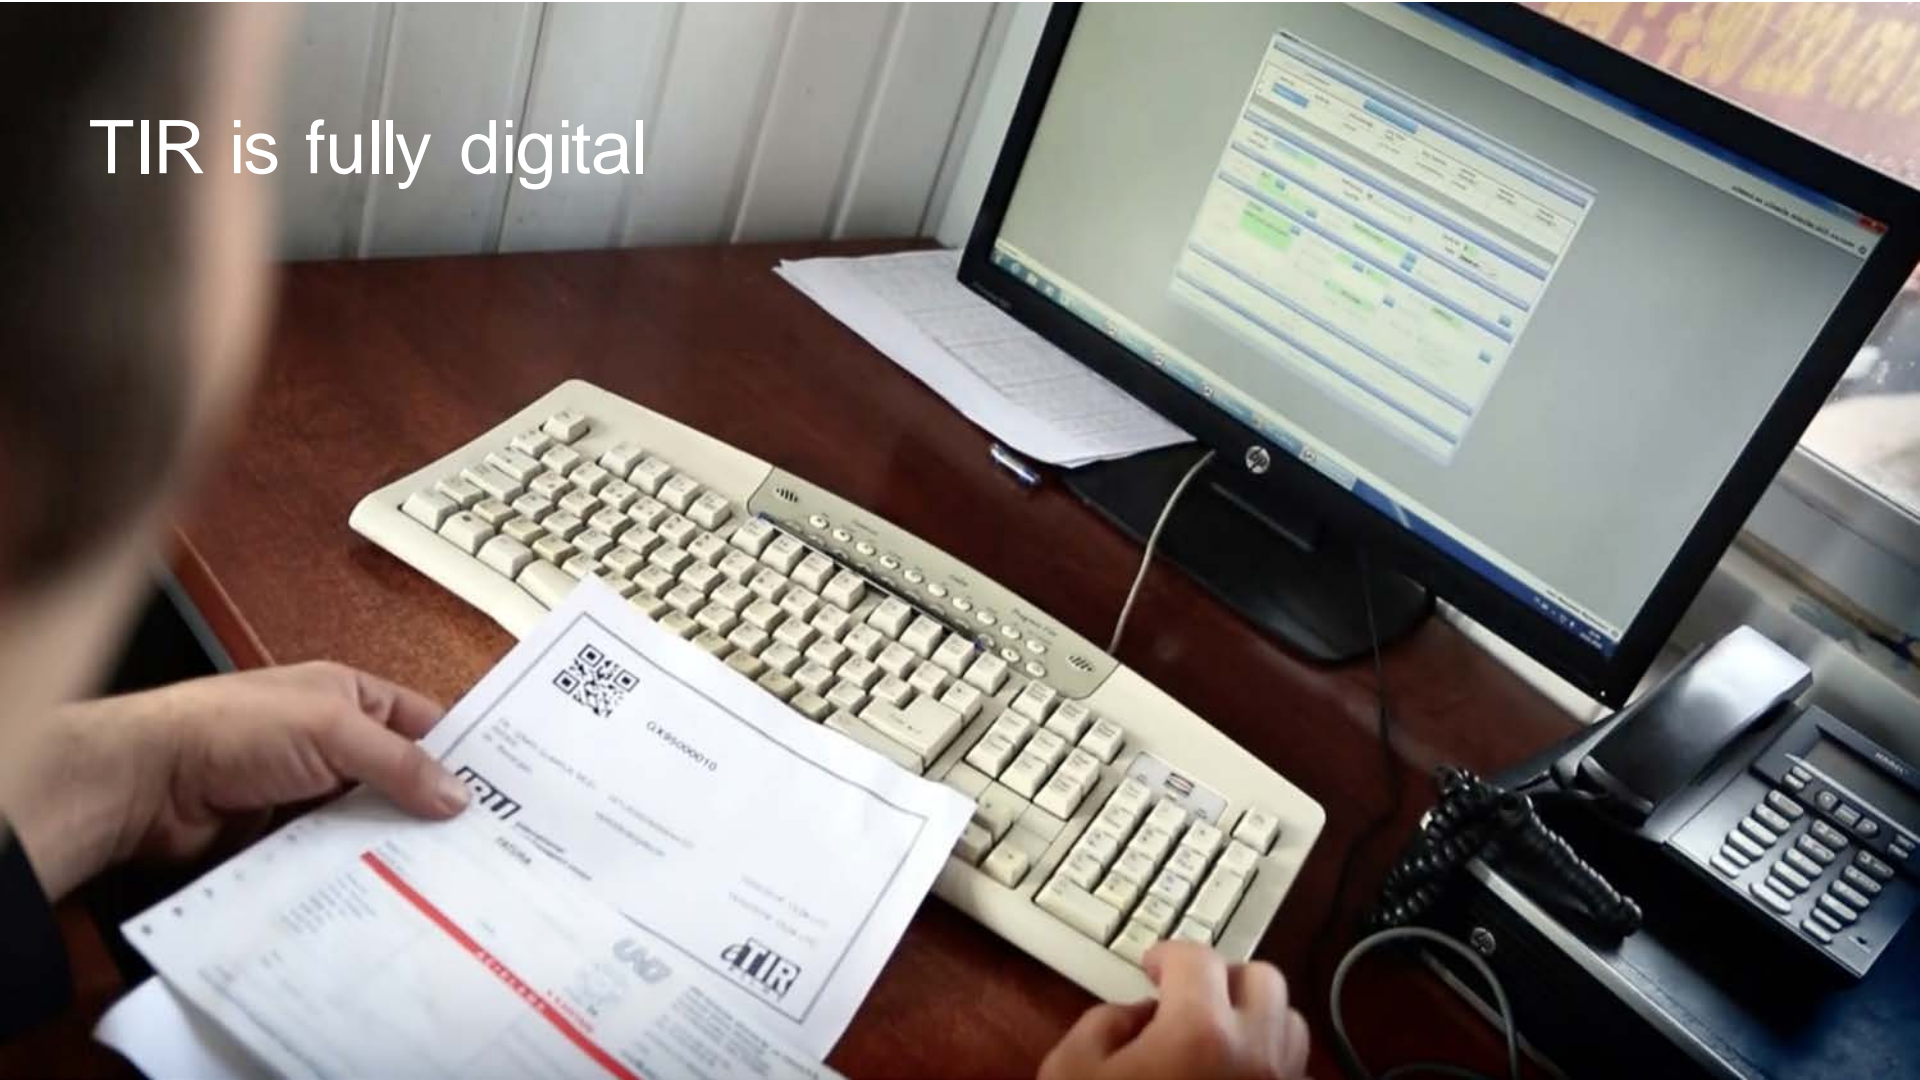

Going digital

Changing supply chains

TIR is fully digital

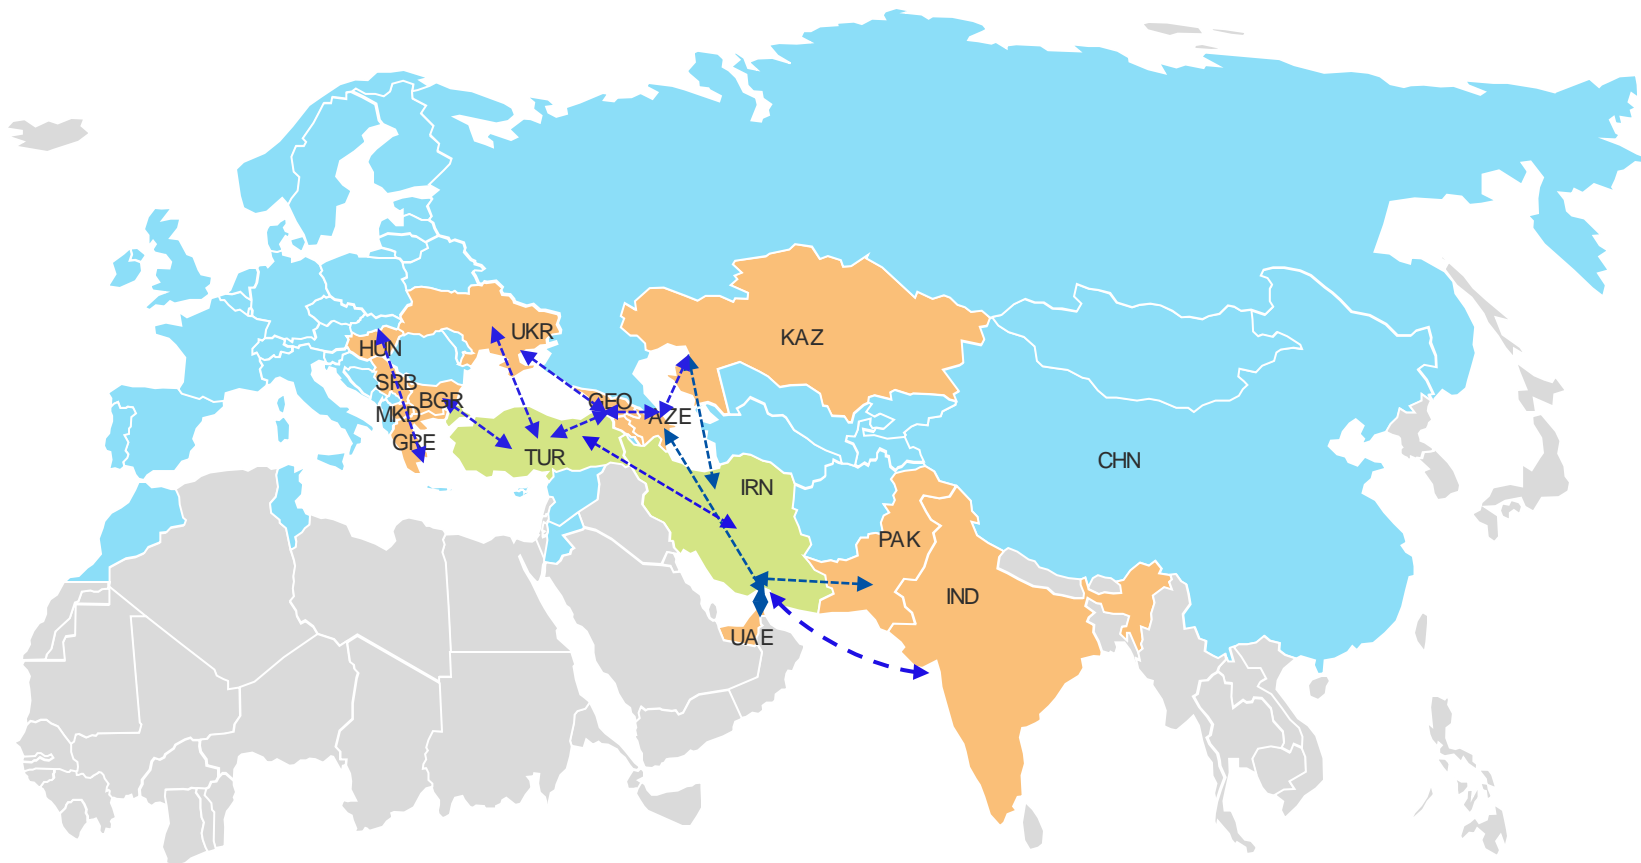

UNECE

IRU

Digital TIR corridors

Digitalising CMR

Digital transport documents – unleashing the full potential of intermodal supply chains

A glance at the future: TIR in India intermodal and digital

time savings of 40%
30% reduction in the cost of trade

A glance at the future: TIR in China intermodal *and* digital

A man with a beard and mustache, wearing a red and blue winter vest over a dark jacket, stands with his arms crossed in front of a train engine. The scene is set at sunrise, with the sun low on the horizon, creating a warm, golden glow and lens flare. The train engine is a large, dark-colored locomotive with various mechanical parts and hoses visible. The man is looking off to the side with a pleasant expression.
