

► Guidelines on the Promotion of Decent Work and Road Safety in the Transport Sector

Maritime and Transport Unit, Sectoral Policies Department

Decent Work

- ▶ • Freely chosen and productive **employment** with a fair income is the principal way out of poverty and is fundamental to peace and security, and above all to human dignity.
- **Rights at work** help empower individuals to escape from poverty and guarantee a path of development that does not allow labour abuses.
- **Social protection**, both at work and in the absence of work, safeguards against falling back into poverty.
- And **social dialogue** is the basis for democracy and good governance, ensuring the participation of both employers' and workers' organizations in shaping government policies for poverty reduction.
