**Review of the listings for Ammonium Nitrate Fertilizer**

**Transmitted by the Expert from Canada**

1. Some Canadian consignors of Ammonium nitrate fertilizer have raised questions over the current Shipping Names for this product listed in Chapter 3 of the Model Regulations. They have asked why three different classifications are required for fertilizers and why the only applicable listing for mixed fertilizers is **UN 2072 AMMONIUM NITRATE FERTILIZER, N.O.S.**
2. Canada proposes that the topic of listing and classification for Ammonium nitrate fertilizer should be added to the Programme of work for the 1999/2000 biennium. The Committee is requested to approach this subject with a view to streamlining the process.
