DRAFT SUPPLEMENT 6 TO REGULATION No. 91

(Side-marker lamps)

Note: The text reproduced below was adopted by the Administrative Committee (AC.1) of the amended 1958 Agreement at its twenty-fourth session, following the recommendation by WP.29 at its one-hundred-and-thirtieth session. It is based on document TRANS/WP.29/2003/32, not amended (TRANS/WP.29/926, para. 118).

Paragraph 2.3., amend to read:

"2.3. "Side-marker lamps of different types" means side-marker lamps which differ in such essential respects as:

- the trade name or mark;
- the characteristics of the optical system (level of intensity, light distribution angles, category of the filament lamp, etc.).

The colour of the filament lamp or the colour of any filter does not constitute a change of type."

Insert a new paragraph 9.3., to read:

"9.3. The limits of the apparent surface in the direction of the reference axis of a light-signalling device shall be determined."
