

- Option 1: GTR with Simultaneous 50th and 5th with SID-IIs (no consideration of replacement)
- Option2: as above but replace SID-IIs with WS5th when ready
- Option 3: 2 phase approach – WS50 now, introduce 5th later when ready
- Option 4: draft providing for both dummies – framed on basis that WS5th will be ready by the time of the implementation date.
- Option 5 – 50th with a creative way to extend protection to other occupants
