

Topical Issues of the System of Technical Regulation in the Eurasian Economic Union

Valery KORESHKOV,

*Member of the Board (Minister) for Technical Regulation
Eurasian Economic Commission*

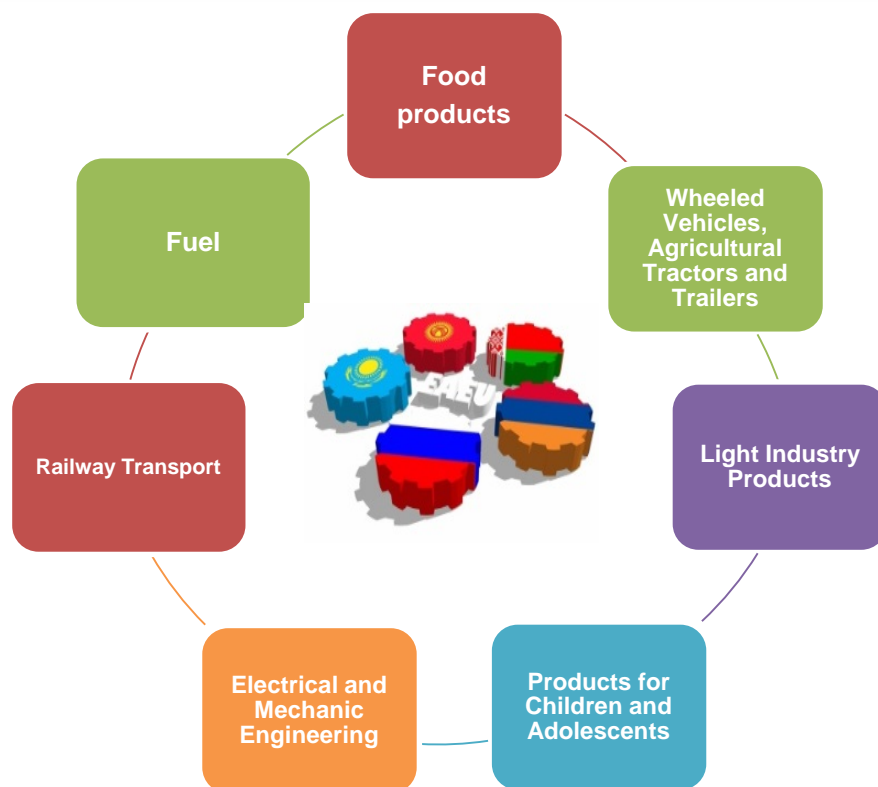

Eurasian Conformity

Establishment and application of mandatory requirements to products in technical regulations

Establishment of a single procedure of conformity assessment

Voluntary application of standards

66 items – 70% of circulated products

39 EAEU TRs are adopted
35 CU TRs are enforced
17 projects of EAEU TRs are under drafting
26 amendments to CU TRs are under drafting

more than 11 000 documents in Lists of Standards

more than 500 000 of Single certificates of conformity

more than 2,0 million of Single forms of declarations of conformity

DEVELOPMENT OF SINGLE MANDATORY REQUIREMENTS

Member states of Eurasian economic union

Eurasian Economic Commission

***Consultative Committee for
Technical regulation, Sanitary, Phytosanitary and Veterinary
measures***

Sub-committees

Standardization

Conformity Assessment

Construction

Measurement Assurance

Accreditation

Surveillance (Control)

***Working Groups with the
participation of experts of
business communities***

***Drafting of projects
of EAEU TRs,
amendments to CU
TRs, projects of
international
agreements, other
single documents***

***Consultative bodies include the representatives of industry and business communities.
An active participation of experts allows to take balanced decisions.***

Adopted at the EEC Council meeting on October 18, 2016

- ✓ **Implementation of the Treaty on the EAEU;**
- ✓ **More active involvement of stakeholders in drafting of the EAEU technical regulations, Lists of standards and Single sanitary requirements;**
- ✓ **Enhancing transparency with account of the WTO principles;**
- ✓ **Requirements based on international and regional standards;**
- ✓ **Introducing Regulatory Impact Assessment of the EAEU TRs and lists of standards by the Commission**

Procedure of drafting, adopting, amending and cancelling of the EAEU Technical Regulations

Amendments to the EEC Council
Decision № 48 of June 20, 2012

Procedure of development and adoption of lists of standards under the EAEU TRs

Repealing the EEC Board Decision
№ 306 of December 2012

Procedure of development, adoption, amending and application of single sanitary, epidemiological and hygienic requirements and procedures

Para 3, Article 57 of the Treaty
on the EAEU

PLAN of Development of Technical Regulations

**EEC Council
Decision №79
dated October 1, 2014**

*Amended by EEC Council
Decision № 43 dated February 12, 2016, Decision №36 dated
April 28, 2015, Decision № 81 dated February 02, 2015, Decision
№43 dated February 12, 2013*

**Adopted by EEC Council
on October 18, 2016**

EAEU TRs:

Fish and Fishery Products

***EAEU TR was developed on the basis of EU
regulations, including: 852/2004/EC,
853/2004/EC, 854/2004/EC***

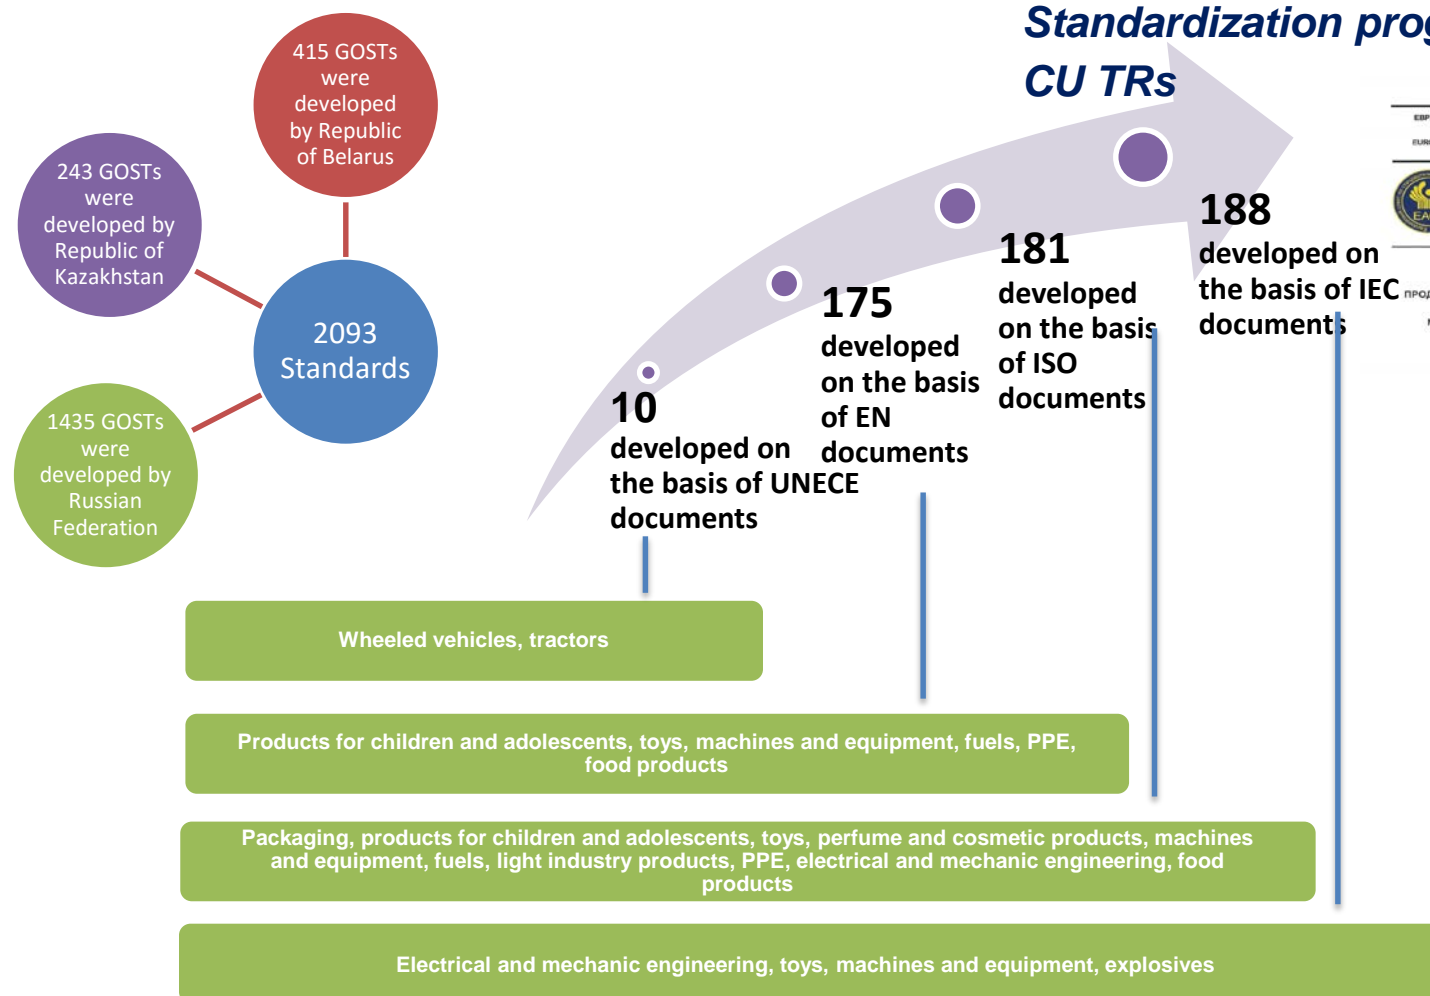

***On Restrictions of the Use of Dangerous
Substances in Electrotechnical and
Radioelectronic Devices***

***Requirements on restrictions of the use of
dangerous substances established by EAEU TR
are harmonized with the Directive 2011/65 / EU***

On Safety of Attractions

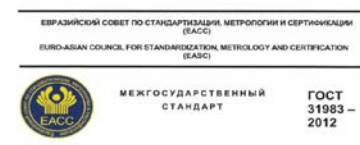

***Principles used in the EAEU TRs are based
on the experience of application of the EN
13814-2004***

Standards are the main tool of the implementation of technical regulations

*Lists of Standards for **33** CU TRs*

*Standardization programmes for **32** CU TRs*

CONFORMITY ASSESSMENT IS A NECESSARY TOOL OF TECHNICAL REGULATION

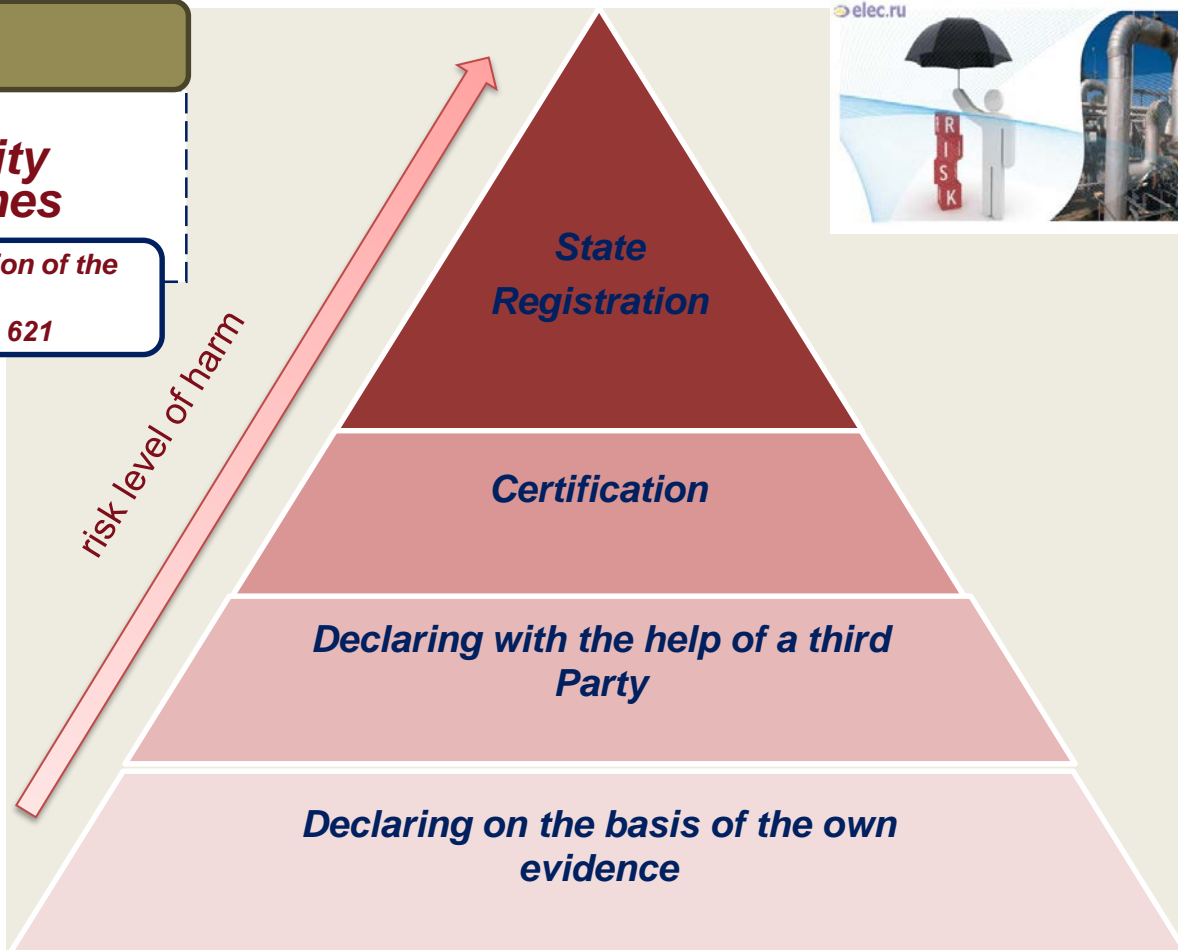

Draft new version

Standard Conformity Assessment Schemes

*Decision of the Commission of the
Customs Union
dated 7 April 2011 № 621*

*Developed:
on the basis of the legislation
of the EAEU Member States
with the use of both
international practice (Guide
ISO/IEC 67)
and
approaches of the European
Union (Decision
№768/2008/EC)*

risk level of harm

NATIONAL ACCREDITATION SYSTEM

Аккредитация

– **ACCREDITATION** is the mechanism that provides trust

Harmonization of rules and approaches with the international ISO/IEC 17000 standards in the field of accreditation

Systems of accreditation should ensure:

Proof of competence of participants,

Single approaches to evaluation of the enforcement of mandatory requirements.

Article 51 of the Treaty on the EAEU and Annex №10

Coordinated policy of ensuring the uniformity of measurements

*Based on IOLM
principles,
CIS agreements*

Application of adopted units of measurements

*Inter-laboratory comparative tests
(inter-laboratory comparisons)*

*Metrological examination of draft technical
regulations of the EAEU and draft lists of standards
for EAEU TRs*

Verification procedure for measurement equipment

*Validation procedure for the measurement methods
adopted as a reference method*

Type approval procedure for reference materials

Type approval procedure for measuring instruments

*Mutual recognition of the results of activities
ensuring the uniformity of measurements*

Information exchange

8

2

*Setting up the mechanisms of
mutual recognition of
results of activities ensuring
the uniformity of measurements*

*Drafts of **3** International Agreements are being drafted by Working Groups that include experts of authorized bodies, representatives of industry and business community*

Applying equivalent approaches to market surveillance

With account of EU Regulation № 765/2008

- ✓ *On Principles and Approaches to the Harmonization of Legislation of EAEU Member States in the Sphere of State Control (surveillance) over the Fulfillment of Requirements of EAEU TRs*

Improving the safety of products

With account of EU Directive 2001/95/EC

- ✓ *On Rules and Procedures of Ensuring Safety of Circulated Products, that are not Covered by the Technical Regulations*

Setting up mechanisms of elimination of technical barriers to trade with the third countries

Based on the WTO principles

- ✓ *On Procedures and Conditions of Elimination of Technical Barriers in Mutual Trade with Third Countries*

Approval by the Member States

National Metrological Institutions

Main objectives and future perspectives in the field of EAEU technical regulation

Moving from national normalization to
single requirements

Implementation of the Plan of Development of Technical Regulations

Adoption and implementation of EAEU TRs

Carrying out conformity assessment of products by the single rules

Forms and procedures in the EAEU TRs

Moving from national standards to **interstate GOSTs**

Priority drafting of development of interstate standards for EAEU TRs

Harmonization of the laws of the Member States in the field of state control (surveillance)

Moving from a scheduled control to the risk-based approach

Creating a **unified electronic system of information exchange** in the EAEU

Including the information system on dangerous products

Increasing the **involvement of the business community** to improve the effectiveness of technical regulation in the EAEU

Organizing workshops, round tables, meetings of consultative bodies
