09h10-09h40	Question & Answer Session
09:40-09:45	Closing

SDGs implementation is one of the key strategic aims for the development of EAEU Member states and for the Eurasian integration overall.

The issues of SDGs implementation at the supranational level will be discussed, including developing the comprehensive system of SDGs monitoring, fostering SDGs achievement using digital technologies (blockchain and cryptocurrencies), a concept of inclusive growth and the methodology for its analysis: EAEU experience.

Efforts on the regional level undertaken to intensify macroeconomic dialogue and policy actions to deal with Member countries weaknesses and differences reinvigorate the growth.

Improvement of institutional set-up, macroeconomic management, removing barriers to free trade in the region, strengthening its economic, social cohesion to promote inclusive and sustainable economic growth in the region will also be in focus.
