The International PPP Centre of Excellence is an operational centre of the United Nations Economic Commission for Europe established to harness the expertise and knowledge of over 2000 experts from the public and private sector to identify international PPP best practices, to assist governments in implementing best practices successfully, and to encourage knowledge sharing between countries new to PPPs and those with mature PPP programmes. On 30 March – 1 April 2016 the Centre of Excellence will focus on the UNECE’s work of developing international standards on PPPs for the Sustainable Development Goals and showcasing PPP projects that achieve the UN Sustainable Development Goals.
