

SESSION II – BLOCKCHAIN AND DIGITAL IDENTITY

Alex Puig

The Lorena middleware

Alex Puig is a software R+D engineer and tech entrepreneur. Due to his interest in cryptocurrencies, he founded Digital Currency Summit, a conference aiming to debate about the economic impact of blockchain and decentralized technologies in our society.

His areas of interest are Blockchain, DAG, Self Sovereign IDs, Zero Knowledge Proof and Tokenomics.

He also founded Alastria Blockchain Ecosystem, the first National Wide semi-public blockchain Platform, and now is leading the Technical Team at Caelum Labs, a Blockchain consultancy and development firm based in Barcelona.
