

DATA PIPELINE PROJECT

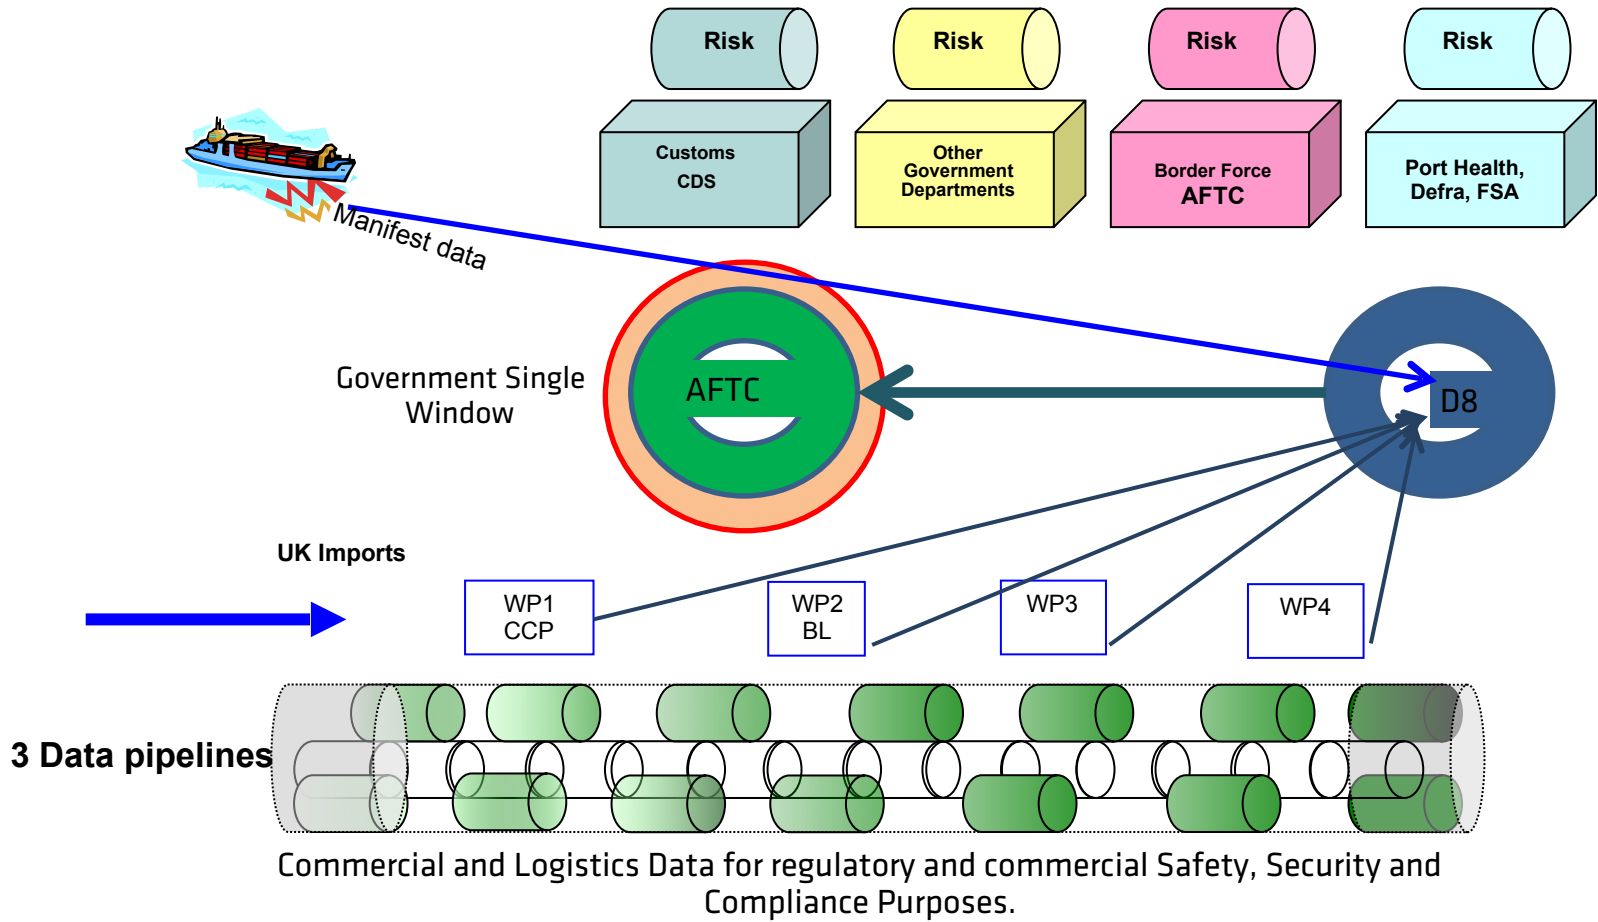

ROME OCTOBER 2017

News (UK only..)

- Trailing the concepts from EU CORE with UK port health, 50% hit rate to date, more data requested
- Viewed as an enabler for efficient border management in UK post BREXIT
- Imperial College London adopting concept for white paper addressing the automotive industry concern for increased duty(s) when re-exporting to EU

Goals for Project Post Today

- Close off Feedback from Project to date
- Update Cue and 'watchers'
- Request Assistance with White paper and RSM
