

Mr. Gerhard HEEMSKERK

**Independent Consultant in the field of Electronic Data Interchanges
(EDI)**

Gerhard Heemskerk is currently an independent consultant in the field of Electronic Data Interchanges (EDI). He is an expert on standardization with the Dutch floricultural industry. For many years he was active within Floricode, the floricultural standards organization. He was the co-editor of the Dutch guidelines for message development in agriculture and horticulture. As part of his international activities for the Dutch agriculture, he is active in the United Nations Centre for Trade Facilitation and Electronic Business (UN/CEFACT). He has contributed to the development of the UN/CEFACT e-Laboratory, Animal Track & Trace and e-Crop standards. The past few years he was the lead editor of the UN/CEFACT Supply Chain Domain Reference Data Model (SCRDM), the new basis for the development of cross-industry process driven data exchange structures (messages). In addition, he is supporting the UN/CEFACT Library Maintenance team. He Gerhard Heemskerk is a graduate in business informatics.
