**Revised Draft  
Recommendation No. 21**

**CODES FOR TYPES OF CARGO, PACKAGES AND PACKAGING MATERIALS**

## I. PREAMBLE

The United Nations through UN/CEFACT (United Nations Centre for the Facilitation of Procedures and Practices for Administration, Commerce and Transport) supports activities dedicated to improving the ability of business, trade and administrative organisations, from developed, developing and transitional economies, to exchange products and relevant services effectively. Its principal focus is to facilitate international transactions, through the simplification and harmonization of procedures and information flows.<sup>1</sup>

The UN/CEFACT work-program emphasises the need for developing recommendations, which simplify and harmonize the current practices and procedures used in international transactions. Within this context, the role of the UN/CEFACT Codes Working Group (CDWG) is to secure the quality, relevance and availability of code sets and code structures to support the objectives of UN/CEFACT, including managing the maintenance of UN/ECE Recommendations related to codes. The CDWG prepared this revision of the Recommendation 21 code lists.

This edition of the code lists for Recommendation No. 21 supercedes and replaces Annex V and Annex VI in the second edition of Recommendation 21 (ECE/TRADE/195, August 1994).

## II. MAINTENANCE AND UPDATING

1. This Recommendation shall be maintained on behalf of UN/CEFACT by the UN/CEFACT Codes Working Group (CDWG).

2. Proposals for updating this Recommendation should be addressed to the Trade Facilitation Section, United Nations Economic Commission for Europe, Palais des Nations, CH-1211 Geneva 10, Switzerland.

3. Draft revisions to the body text and/or code list of this Recommendation shall be issued by the CDWG when required and shall be made available on the CDWG Web page under:

<http://www.unece.org/cefact/>

4. Draft revisions shall be subject to a public comment period of at least two months. UN/CEFACT Heads of Delegation shall be notified of the availability of a draft revision and the period for comment. Following the conclusion of the comment period, the CDWG shall address all comments received. Depending on the comments received, the CDWG shall issue a new draft revision or shall prepare a final revision for approval.

5. Final revisions of the body text of this Recommendation shall be approved by the UN/CEFACT Plenary.

6. Final revisions of the code list of this Recommendation shall be approved by the CDWG Plenary or in the case where the body text has also been revised, by the UN/CEFACT Plenary.

## III. CODE LIST PRESENTATION

7. The code lists are annexed to this Recommendation, as follows:

Annex V Coded representations of package type names used in international trade (in alphabetical name order).

Annex VI Coded representations of package type names used in international trade (in alphabetical code order).

8. The code lists are presented with the following columns:

### Change indicator (CI)

a plus sign (+)	for an addition
a hash sign (#)	for changes to the code name
a letter X (X)	for marked for deletion in this edition (will not appear in the next edition)

### Code
