Item 7 of the provisional agenda

New and revised standards and recommendations

Recommendation No. 21: Codes for passengers, types of cargo, packages and packaging materials

Revision 8.1: Annex V and Annex VI: codes representations of package type names used in international trade

Submitted by the Information Content Management Group (ICG)

Summary

At its fifth session, in 1999, the United Nations Centre for Trade Facilitation and Electronic Business (UN/CEFACT) approved the recommendation of its Steering Group to delegate the authority for maintenance of the code lists associated with UN/CEFACT Recommendations to the Code Working Group. This authorization was transferred to the Information Content Management Group (ICG) in the reorganization of UN/CEFACT's structure in 2003.

The ICG approved the latest code list in August 2010 (Revision 8.1) and is submitting these updated lists to the Plenary for noting.¹

I. Preamble

1. The United Nations, through its Centre for Trade Facilitation and Electronic Business (UN/CEFACT), supports activities dedicated to improving the ability of business, trade and administrative organizations, from developed, developing and transitional economies, to exchange products and relevant services effectively. Its principal focus is on facilitating national and international transactions, through the simplification and harmonization of processes, procedures and information flows, and so contribute to the growth of global commerce.²

2. The UN/CEFACT work programme emphasizes the need for developing recommendations, which simplify and harmonize the current practices and procedures used in international transactions. Within this context, the role of the UN/CEFACT Information Content Management Group (ICG) is to secure the quality, relevance and availability of code sets and code structures to support the objectives of UN/CEFACT, including managing the maintenance of UNECE Recommendations related to codes. The ICG prepared this latest revision of the code list for Recommendation 21.

3. The attached revision supersedes and replaces the code list released as the seventh revision of Recommendation 21, Annex V and Annex VI, (CEFACT/ICG/2008/IC005) approved by the ICG, in April 2009.

II. Code list presentation

4. The code list is presented with the following columns:
