☆ *Activities of Committees and W/Gs (AFACT)*

CCL Utilization in Asia by Hisanao Sugamata (HS)^u

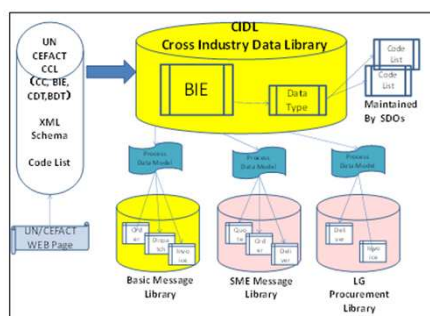

(1) HS introduced the guideline (in Japanese) for the IT business infrastructure based on CIDL (Cross Industry Data Library).^u

*CIDL Framework is using the packaging concept of CCTS V3.^u

*Refer: http://www.caos-a.co.jp/SIPS/bizinfra/CI_Spec2.html^u

7

(2) Action agreed:

HS will prepare the English version of CIDL Guideline by Sep/2013.

TMC members (and StC members) will evaluate the CIDL Guideline and will feedback to HS by Nov/2013.

HS will propose to utilize the Guideline in Asian region at Nov/2013.

Cambodia

Vietnam

Interview July/Oct. 2012

13

Corner stone for ASEAN Community

*The initiative of ASW is working very closely to the establishment of the “ASEAN Community” by **2015.***

*It is indispensable for **all countries** to have their own National Single Window as the trade-related procedures of **all ASEAN countries** become efficient and transparent that is very important to make **ASEAN a Single Market.***

This is one of the main objectives of the “ASEAN Community”.

14

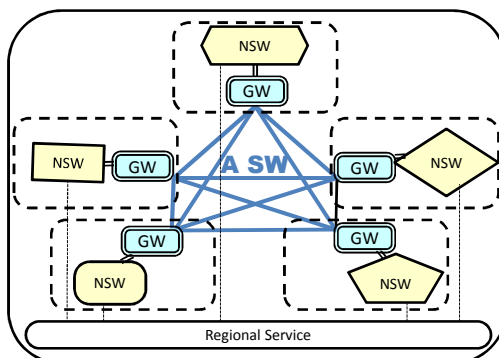

Program towards the live implementation

- ① ASW pilot project with a scaled-down architecture is conducted in 2012 among **seven ASEAN Member States** except Cambodia, Myanmar and Lao PDR.
- ② **The pilot of the full-fledged architecture** expected to be carried out in **2013** followed by a full evaluation.
- ③ The result of the evaluation of the pilot on the full-fledged architecture will be available in 2014.
- ④ The result of the evaluation will help ASEAN to decide **on the ultimate ASW** for its **'live'** implementation **in 2015**.

15

The model of ASW

Distributed Gateway Model => ASW

Centralized Gateway Model

16

ASW Gateway Application:

- ① **Centrally developed and hosted by each ASEAN Member States.**
- ② Each ASEAN Member States has **their own ways** to connect their respective **National Single Window**
- ③ security is also under their full purview.
