

Vice- Chair : Bruno Prépin
Domain Coordinator : Frans van Diepen

	Morning		Afternoon	
	Session 1 (9h- 10h30)	Session 2 (11h-12h30)	Session 1 (14h-15h30))	Session 2 (16h-17h30)
Monday, April 7th	Opening Plenary session		Validation of the Agenda Status of project in progress New projects presentation eCrop - status of the project proposal work on BRS	"Animal traceability" - work on BRS/RSM
Tuesday, April 8th	"Animal traceability" - work on BRS/RSM		"Animal traceability" - work on BRS/RSM	eCert electronic Signature (pilot results) RASFF (BRS / RSM) and other EC projects ?
Wednesday, April 9th	Electronic data Interchange of fisheries catch data Project presentation		eFOOD Chain Project Pilots presentation	
Thursday, April 10th	ELabs project status (report about the work done (request message and the updates on the report message and further development.)- comparison with EFSA model (to be confirmed)		Communication Plan	Developpment plan for PDA Agriculture Review and finalise Draft documentFinal Report
Friday, April 11th			Closing Plenary session	

UN/CEFACT

United Nations Centre for Trade Facilitation and Electronic Business

Status of current projects

- Animal traceability
 - Work on BRS and class diagram
 - Precision by species
 - Additionnal request for interoperability with CITES system
 - Coherence with FLUX and RASFF
 - Scheduled plan for continuing the work
 - Objective is to finish the BRS and to start harmonization during summer 2014
- eCERT electronic signature
 - SPSCertificate based message exchange with TRACES is available
 - New Zealand is getting ready to exchange on large scale: Fishery products; Meat of bovine and ovine animals
 - Target is to make exchanges with non-repudiation to enable the paperless exchange
 - Digital signature will enable this
 - 3 new project initiatives around electronic signature submitted in ITPD group by other delegates. This confirms the interest of this topic for UN/CEFACT

UN/CEFACT

United Nations Centre for Trade Facilitation and Electronic Business

Status of current projects

- RASFF
 - Message published in CCL13B
 - Implementation is in progress between EC and Members states
 - New messages :
 - Follow-up distribution to third Countries
 - Notification and Follow-up Actions (new version of project)
 - Issues : Core vocabularies and taxonomies (Hazards; Value chain / Traceability)
 - Have a coherence with other agricultural messages :
 - eCert
 - eLabs
 - Animal Traceability
 - FLUX

Status of current projects

- FLUX :
 - P1000 - 10 Master data register domain -publication in CCL 14A
 - P1000 - 2 Vessel domain – BRS in progress – publication expected in CCL14B
 - P1000 – 5 Sales note domain & P1000 - 6; Transport domain – BRS in progress - publication expected in CCL15A
 - P1000 - 8 Inspection domain - Planned to be harmonized in CCL15B
 - P1000 - 9 Licence domain - Planned to be harmonized in CCL15B
 - Collaboration with FAO (vessel domain) and CITES (species classification and traceability)

Status of current projects

- **eLabs**
 - Change Request Information – publication in CCL 14A
 - Analysis request and acknowledgement – publication in CCL 14A
 - Several pilots in progress
- **Extension : set up a new working group “eLabs III”**
 - Scope
 - Identify the different domains and repositories, taxonomies used by that domains on food safety and food trace
 - Involve different participants (data producers/collectors/consumers) in the food/feed and food safety domains, towards the convergence of shared data models, code lists and exchanged information and practices.
 - Objective :
 - Promote interoperability and data reuse among business/ government/consumer organizations in the food/feed and food safety domains, by aligning business processes and practices, establishing a common vocabulary and structure for information communication and publication.

UN/CEFACT

United Nations Centre for Trade Facilitation and Electronic Business

Status of current projects

- Fresh Crop data exchange
 - Project proposal validated by PDA Sect Agriculture
 - 3 countries agreement done
 - Project proposal has to be approved by the Bureau

- Joint meeting with Methodology and Technology Group
 - We will prepare a paper about agriculture's requests regarding webservices
- ITPD Group:
 - 3 new project initiatives around electronic signature submitted in ITPD group by other delegates. This confirms the interest of this topic for UN/CEFACT
