Application of SEA process in the Republic of Moldova: Orhei city Master Plan case study

(short presentation)

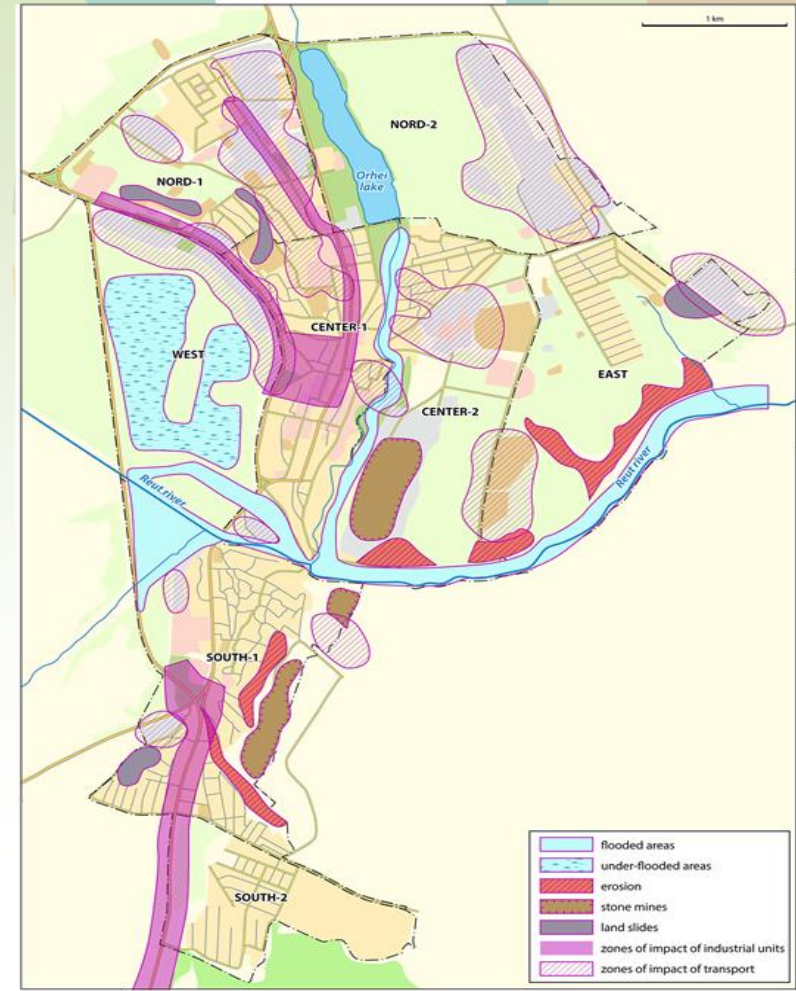

Andrei ISAC, PA EcoContact

Local pilot: Master Plan Orhei

Major problems identified:

- City landfill
- National Road
- Open stone mines
- Old WWTP
- Green zones

Local pilot: Master Plan Orhei

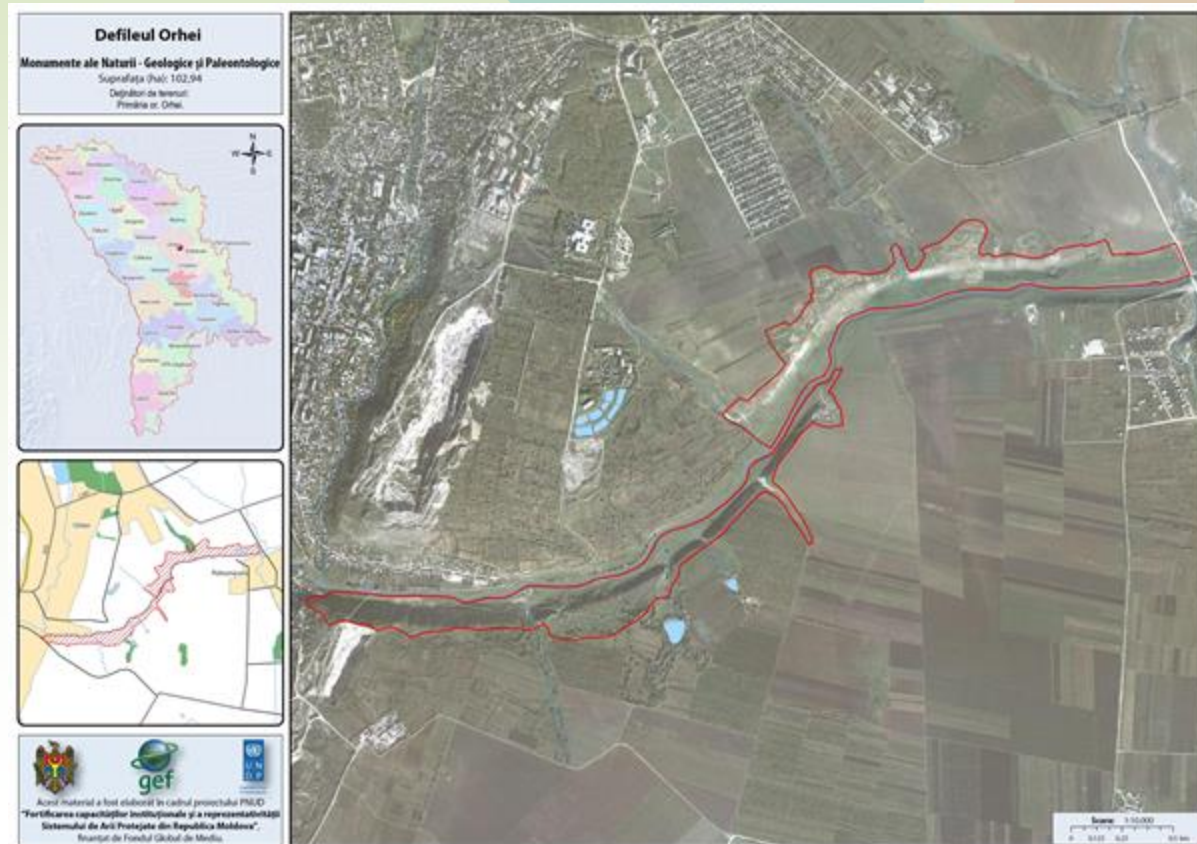

Nume, Prenume

Local pilot: Master Plan Orhei

Proposed alternatives:

- By-pass road, not crossing the protected area
- Industrial WWTP construction
- Municipal wastes landfill – regional approach
- Protection of green zones and river protection belts
