

UN ECONOMIC COMMISSION for EUROPE

Activities to Support SE4ALL Initiative

Viktor Badaker
UNECE/Sustainable Energy Division

Fifth International Forum on Energy for Sustainable Development
Hammamet, Tunisia, 4-7 November 2014

The Sustainable Energy for All (SE4ALL) Initiative of the UN Secretary-General

- UN Secretary-General Ban Ki-moon launched this global initiative to mobilise all stakeholders to take concrete action toward three critical objectives to be achieved by 2030:
 - (1) ensure universal access to modern energy services;
 - (2) double the global rate of improvement in energy efficiency; and
 - (3) double the share of renewable energy in the global energy mix.**
- SEE4ALL is expected to catalyse major new investments to transform the world's energy systems, help eliminate energy poverty, and enhance prosperity.

Doubling the share of renewable energy in the global energy mix

- Reducing the carbon intensity of the energy sector
- Reducing the environmental and social impacts caused by energy and energy poverty
- Supporting economic development

**Launching of new UNDA Project:
“Promoting renewable energy investments
for climate change mitigation
and sustainable development”**

The objective: to strengthen capacities of member states to attract investments in renewable energy projects.

The investments needed for this Action Area are so substantial that the private sector and global financial markets must play a key role. Enabling policy frameworks are critical to make these investments happen.

Case studies on the experience of policy reforms,
regional trainings, workshops and seminars

focusing on policy reforms and investment projects development.

Put in place sensible, consistent, and coherent economic, energy, and environmental policies;

Address market failures;

Build capacity for technology transfer;

Develop normative instruments that can guide investment;

Develop financial instruments that are appropriate for local circumstances.

Thank you

UNECE Sustainable Energy Division
