

Crucial Role of NDEs

Ministry of Environment
Jordan

Ministry of Environment

- **Established in 2003**
- **Establishment of Climate Change Directorate in 2014**
- **Mitigation Section , Adaptation Section**
- **Focal point for UNFCCC**
- **NDA for GCF and AF**
- **NDE for CTCN**

NDE Role

- Engagement of relevant ministries, private sector, civil society, NGOs and academia
- Coordination at national level with other climate change policies, strategies and activities.
- Ensuring that requests will be submitted to the CTCN reflect national circumstances and priorities.
- Approve the response plan and follow up the implementation.

Main Activities

- **NCCC formulated in 2001 and consist of all relevant stakeholders**
- **Meeting for NCCC to engage them, promote CTCN and encourage to submit requests**
- **Collect some ideas but still not formulate as TA requests**
- **No requests submitted until now**
- **TNA project started and will be main reference for future requests development for TA**

Main Barriers

- **Limited staff and overwhelmed work**
- **Many resources available for TA**
- **Looking for finance and implementation**
- **Mainstreaming of CC at national level, priority for water scarcity**
- **Regional political situation**

Thank you

Eng. Hanadi Marie
Head of Adaptation Section
Climate Change Directorate
