

# Islamic Development Bank in Brief

## Overview

Established in 1975 and headquartered in Jeddah, the Kingdom of Saudi Arabia

Currently **57 member countries** (all developing countries) from the Middle East, Africa, the Asia Pacific region, South Asia, Europe and South America

Approval in Energy Sector : USD 46 billion

# Energy Efficiency

**Energy Intensity** continued to fall but still fall short to meet the SDG7 target of doubling the global rate of improvement in EE by 2030.

- Governments are still putting huge investments in the Electricity Generation side to avoid blackout during the peak period (2-3 hours during few months a year). EE and DSM will save the Gov huge investments.

# Challenges of Energy Efficiency

- The absence of **framework and policies** in some countries that regulate and encourage the Energy Efficiency programs, including private sector involvement.
  - ✓ *Energy subsidies*
  - ✓ *PPP , FiT vs. Auctions*
  - ✓ *Energy Service Companies ESCOs.*

# Challenges of Energy Efficiency

- **Implementation Issues of EE Programs**

- ✓ *Nature of EE Programs*
- ✓ *Lack of capacities of the Implementation Agencies.*
- ✓ *Various stakeholders (communication gaps)*
- ✓ *Project Design*

- **Financing requirements.**

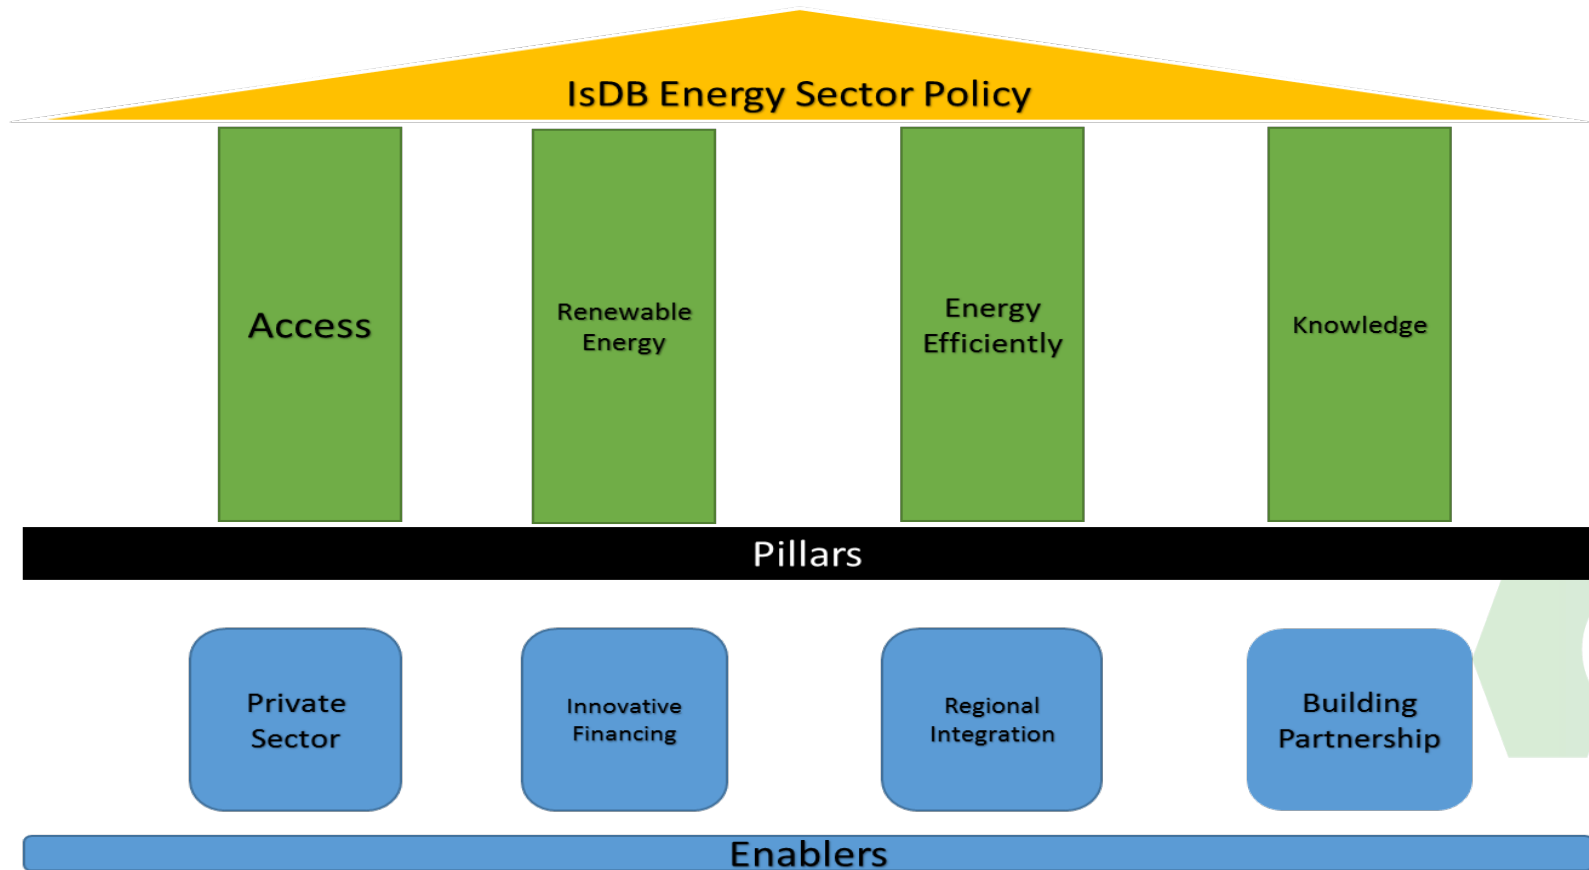

# Finance for Energy Efficiency

***The support of the International Financing Community to the Energy Efficiency is directly linked to the support of Governments to this field.***

# IsDB Energy Sector Policy Framework

# Role of Financing Institutions

- Building partnership strategies with the Countries (emphasis on Policy and Regulation Change promoting EE and RE).
- Analyzing the Country needs. Helping the Country in improving the EE regulations and involvement of private sector . (Technical Assistance , Capacity Building, PPP Technical Assistance Facility).
- Development of new innovative financing mechanisms,
- Support the private sector in RE and EE through the Debt financing for RE PPP projects.
- Promoting the private sector access to the market by providing financing guarantees.
- Playing mediation role between the International Community, Governments' Official, available Clean Funds , ....etc.
