# BOTAŞ Marmara Ereğlisi LNG Terminal

Start in Operation	: August 1994
Capacity	: 6 billion cu.m/year
Number of Tanks	: 3 X 85.000 cu.m
Max Gasification Volume	: 20 million cu.m/day

## Aliğa LNG Terminal

LNG Terminal owned by EGE GAZ

Start in Operation	: December 2006
Capacity	: 6 billion cu.m/year
Number of Tanks	: 2 X 140.000 cu.m
Max Gasification Volume	: 16 million cu.m/day

# SILIVRI NATURAL GAS UNDERGROUND STORAGE FACILITY

Put in Operation : April 2007  
Total Storage Capacity : 2,6 Billion cu.m/year  
Storage Capacity of BOTAS : 2,1 Billion cu.m /year  
Max. Send Out Capacity : 20 Million cu.m/day

# **SALT LAKE UNDERGROUND NATURAL GAS STORAGE PROJECT**

<b>Project Starting Date</b>	<b>: June 2011</b>
<b>Total Capacity of Project</b>	<b>: 1 billion cu.m</b>
<b>Number of caverns</b>	<b>: 12</b>
<b>Max. Injection Capacity</b>	<b>: 30 million cu.m/year</b>
<b>Discharge Capacity</b>	<b>: 40 million cu.m/year</b>

**First 6 caverns are projected to put in operation in 2017**

**The remaining 6 caverns is planning to complete in 2019**
