

Milestones of 2013

Milestones of 2013

In 2013 Gazprom showed excellent results in all key performance indicators. Our production capacities now account for

617 billion cubic meters of gas output

and the reserve replenishment ratio is 1.328. Gazprom fully met the increased demand for Russian gas in Europe, selling

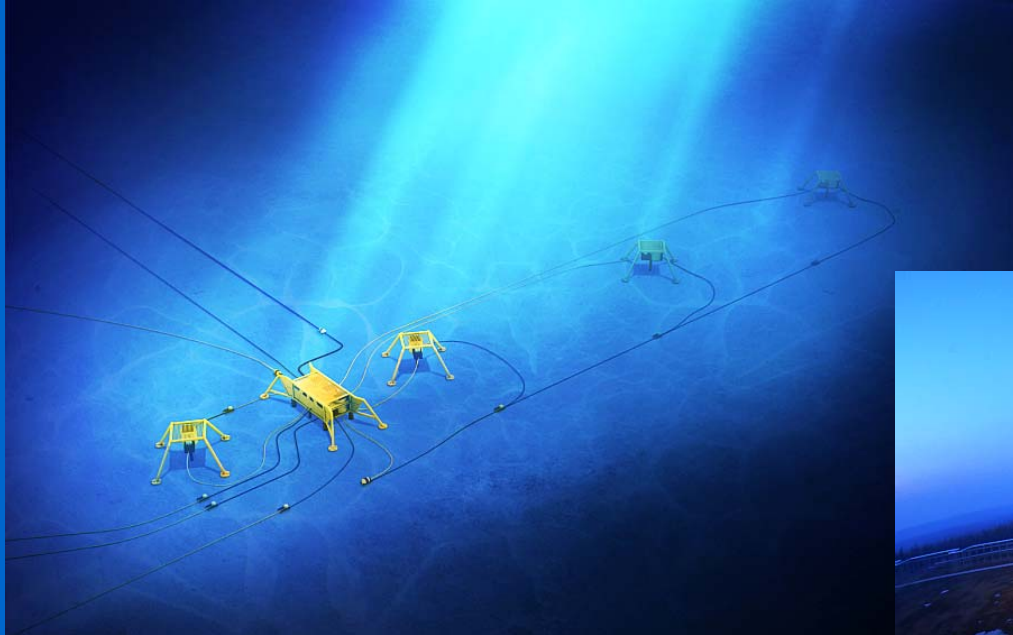

162.7 billion cubic meters

and demonstrating significant growth – more than 16 per cent – as compared to 2012. Gas supplies also increased due to the production rise –

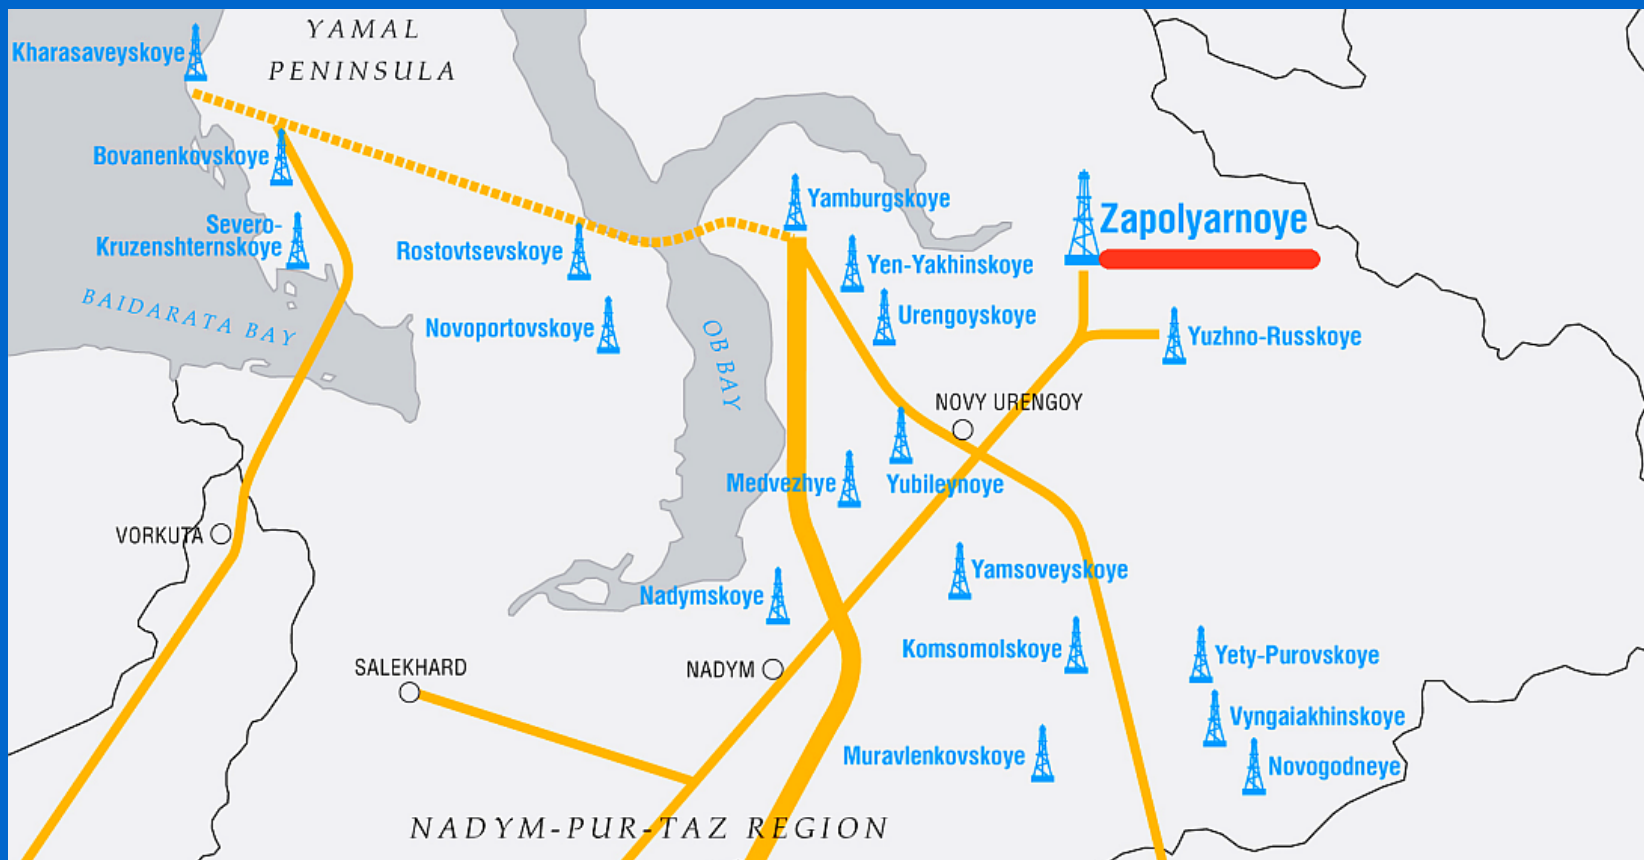

487.4 billion cubic meters of gas

– up 400 million cubic meters versus 2012.

Alexey Miller,
Deputy Chairman of the Board of Directors,
Chairman of the Management Committee,
Gazprom

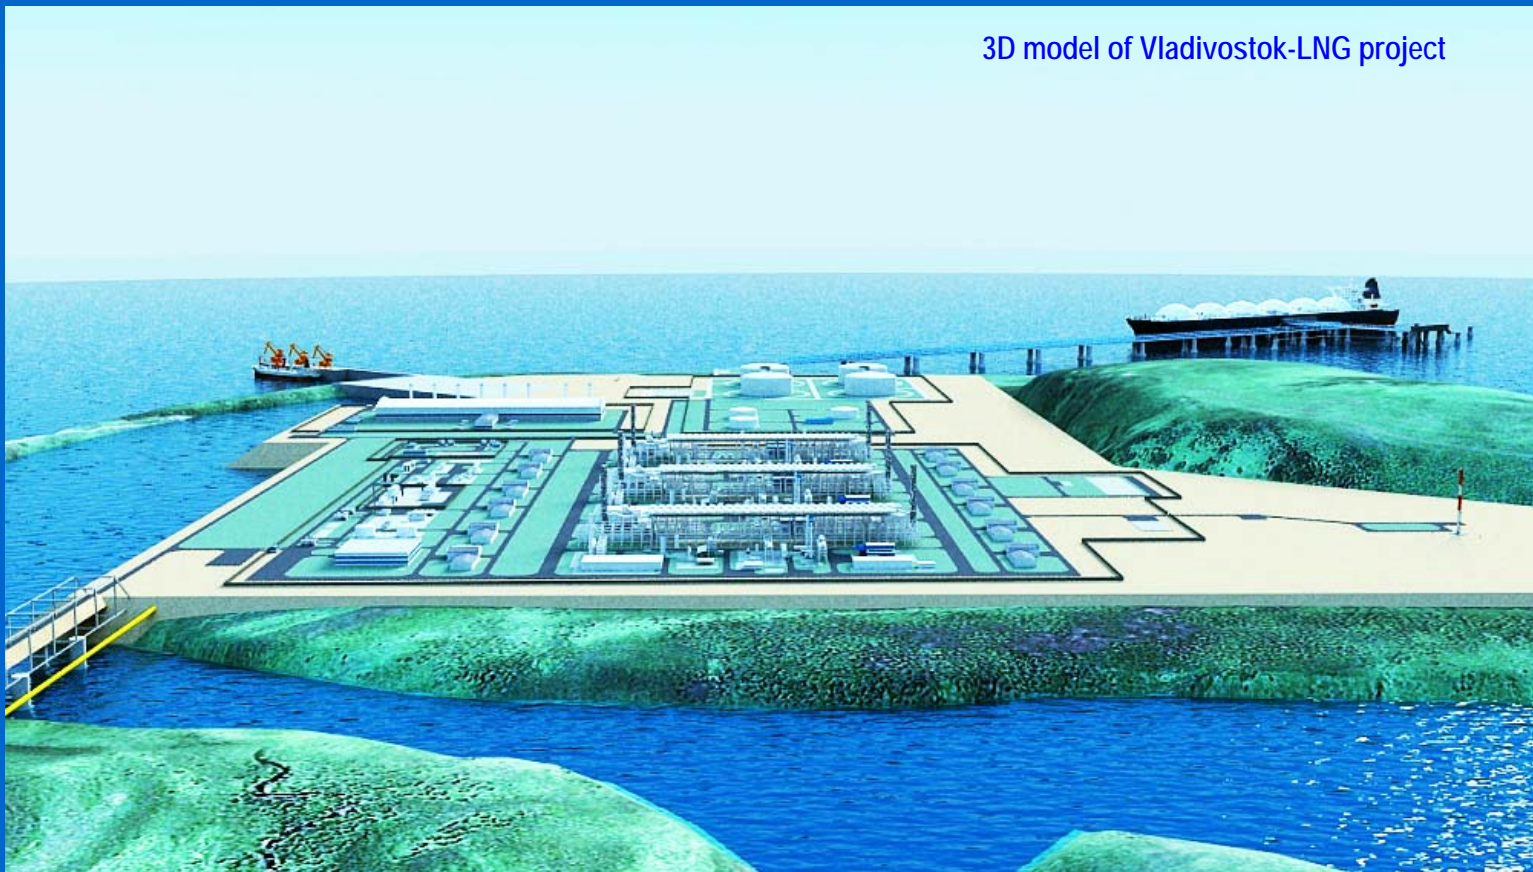

October 23, 2013: Russia's first subsea production facility was successfully tested in the Kirinskoye field within the Sakhalin III project

Zapolyarnoye becomes the most productive field in Russia – 130 billion cubic meters per year

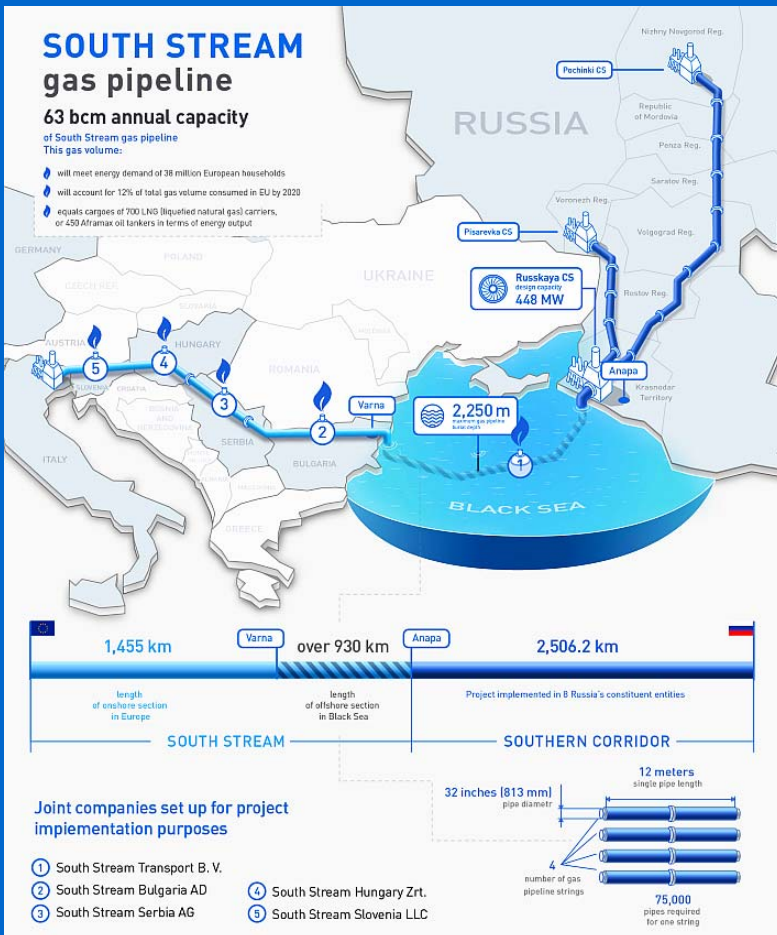

December 20, 2013: Gazprom has started producing oil from the Prirazlomnoye field.

Gazprom's LNG projects: Baltic LNG, Vladivostok LNG, Kaliningrad RG terminal, Sakhalin II LNG extension
