UN ECE Joint Seminar on Land-use Planning around Hazardous Industrial Sites

den Haag, 11 Nov 2010

Building understanding between operators of hazardous activities and competent authorities – experience of Slovenia

Jasmina Karba

Hazards of industrial accidents – SLO perspective

new issue 10 years ago

hot potatoe

long and hard work to follow the priority = high level of safety

traditional + additional /soft/ safety instruments introduced

looking back ... what is the most valuable experience?

the PROCESS

of building understanding between operators of hazardous activities and competent authorities

growing from projects over legislation preparation and implementation, licensing procedures, ...

got serious after the survey ...

started on a case by case basis, turned into a standing committee

DIFFICULT, TIME CONSUMING - USEFUL, BENEFICIAL

..... does not fall from the sky

PREREQUISITES

same priorities and interests of different stakeholders

understanding of the issue

stakeholders brought to the common denominator
