## Project on hazard and crisis management in the Danube Delta, Kick-off meeting, Kyiv 11 May

The objectives for the phase aimed at **hazard management group** are:

- to identify areas for enhancing and possible harmonization of procedures for hazard management, including hazard assessment;
- to discuss and to the possible extent to harmonize the safety standards at the major hazardous facilities located in the Danube Delta region, especially oil terminals;
- to enhance cooperation between competent authorities and operators of major industrial facilities;
- to draft action plans for improving hazard management;
- to help preparing for establishing bi- or trilateral sectoral agreements related to hazard and crisis management; and
- to create public awareness about the importance of hazard management through contact with media.
