# The International Water Assessment Centre

Boris Minarik  
Slovakia/IWAC

Convention of the Protection and Use of Transboundary Watercourses and International Lakes

# 1. What has been done in this work area? The main achievements since 2009?

---

- IWAC has contributed to many Water Convention activities
- Significant role in the preparation of the Second Assessment
- Added value to the Climate Change projects
- Networking with other projects (NATO, UNDP, GWP, EU)

## 2. What are the main challenges and lessons learnt?

---

- To use experiences from Danube and entry to EU for replication in other regions
- In information exchange and cooperation among sectors and countries - the simplest approach is effective
- Administration of Slovak Aid needs more effort and coordination

### 3. What are the ideas for the future work in this area?

---

- To assist to countries and to the Secretariat in the implementation of the convention
- Seek synergy between Slovak Aid and IWAC activities
- Better networking with other UNECE projects and programs (also of other international organizations)
