In accordance with the above mandate, the present document contains a number of draft texts for the Working Group's consideration: a draft decision on the adoption of the workplan for the next intersessional period, 2017–2020; a draft decision on the budget, financial arrangements and financial assistance; a draft decision on guidance on land-use planning, the siting of hazardous activities and related safety aspects; and a draft decision on the development of a strategy and an action plan for the future application of the Convention and the Protocol.

The draft decisions contained in the present document were prepared by the joint Bureau of the governing bodies of the two treaties, with the support of the secretariat, as requested by the Working Group at its fifth meeting (Geneva, 11–15 April 2016). The draft decision on the adoption of the workplan was revised by the Bureau taking into account the Working Group's comments on a draft version of this document (ECE/MP.EIA/WG.2/2016/L.1). The remaining decisions in this document are new proposals.

The Working Group is expected to review and agree on the text of the draft decisions to be forwarded for consideration by the governing bodies of the Convention and the Protocol at their next joint sessions (Minsk, 13–16 June 2017).

## Decision VII/3–III/3

### Adoption of the workplan

*The Meeting of the Parties to the Convention and the Meeting of the Parties to the Convention serving as the Meeting of the Parties to the Protocol (Meeting of the Parties to the Protocol), meeting in joint session,*

*Recalling* article 11, paragraph 2 (f), of the Convention on Environmental Impact Assessment in a Transboundary Context, stipulating that the Meeting of the Parties will consider and undertake any additional action that may be required to achieve the purposes of the Convention,

*Recalling also* article 14, paragraph 4 (f), of the Protocol on Strategic Environmental Assessment, stipulating that the Meeting of the Parties to the Protocol will consider and undertake any additional action, including action to be carried out jointly under the Protocol and the Convention, that may be required to achieve the purposes of the Protocol,

*Recognizing* that it is essential for Parties to the Convention and the Protocol to meet fully their legal obligations arising under these treaties,

*Recognizing also* that Parties to the Convention and the Protocol should take action to maximize the effectiveness of their application of the Convention and the Protocol, respectively, so that the best possible practical results are achieved,

*Acknowledging* that the Convention and, in particular, its Protocol, provide a framework for the integration of environmental, including health, concerns into development activities and sectoral plans, programmes, and where appropriate, into policies and legislation and that, consequently, their effective application contributes to supporting countries to achieve the Sustainable Development Goals as set out in the 2030 Agenda for Sustainable Development,

*Recognizing with appreciation* the valuable work carried out under the workplan adopted at the sixth session of the Meeting of the Parties to the Convention and the second session of the Meeting of the Parties to the Protocol (decision VI/3–II/3), particularly:

- (a) The steps taken by Parties and non-Parties to ensure that their environmental impact assessment (EIA) systems are consistent with the provisions of the Convention and the Protocol, and to report accordingly;
- (b) The workshops and pilot projects for subregional cooperation and capacity-building on EIA and strategic environmental assessment (SEA) organized by the Governments of Armenia, Azerbaijan, Belarus, Georgia, Germany, [Latvia], Lithuania, Morocco, the Republic of Moldova, [the Russian Federation] and Ukraine;
- (c) The seminars for the exchange of good practices organized by the secretariat on behalf of the Governments of Belarus and Ukraine and by the European Investment Bank;
- (d) The preparation of guidance material and recommendations for improving the implementation of the Convention and the Protocol, notably regarding:
  - (i) The application of the Convention to nuclear energy-related matters;
  - (ii) Transboundary EIA in Central Asian countries;
  - (iii) Land-use planning, the siting of hazardous activities and related safety aspects;

(iv) Reforming legal and institutional structures with regard to application of the Protocol on SEA;

(e) The preparation by the secretariat of promotional material, including a video and a brochure on the Protocol and its benefits,

*Noting with satisfaction* that the activities in the workplan adopted by the Meetings of the Parties to the Convention and the Protocol, at their sixth and second session, respectively[, excluding those that were cancelled,] have been approximately [...] per cent completed, with [...] per cent of priority 1 activities completed and approximately [...] per cent of priority 2 activities and [...] per cent of priority 3 activities completed,<sup>1</sup>

[*Also noting with satisfaction* that the implementation of approximately [...] per cent of the remaining workplan activities are ongoing or are planned and are expected to be completed in the next intersessional period.]

*Recognizing with regret* that attempts to accelerate the formal opening of the Convention to countries outside the Economic Commission for Europe region (ECE) have been forestalled by legal impediments,

*Wishing* to establish a realistic intersessional workplan under the Convention and the Protocol by ensuring in advance the funding of the workplan activities,

*Noting with concern*, however, the limited funding available to support the implementation of the workplan activities,

1. *Decide* that activities for which no funding is identified should remain on a waiting list, as set out in annex II to the present decision, until appropriate funding is made available, and invite Parties to the Convention and the Protocol, and other stakeholders to actively seek opportunities for ensuring their financing and implementation;

2. *Adopt* the workplan and the waiting list of activities for the period 2017–2020, as set out in annexes I and II to the present decision;

3. *Call on* the Parties, and also invite non-Parties, to arrange, host and participate actively in seminars, workshops and meetings to facilitate implementation of and compliance with the Convention and the Protocol;

4. *Invite* Parties to upgrade the sustainable availability of financing for the activities on the workplan, including the waiting list, and also invite interested Parties, organizations and other stakeholders to support the mobilization of means and resources for those activities;

5. *Invite* relevant bodies or agencies, whether national or international, governmental or non-governmental and, possibly, researchers, commercial firms, developers, consultants or other commercial entities to participate actively in the activities included in the workplan, where appropriate;

6. *Invite* the ECE Executive Secretary to continue supporting the work under the Convention and the Protocol by promoting the activities planned in the workplan and providing formal documentation for and ensuring publication of the outcomes of these activities in the three official languages of ECE, as appropriate. Publications subject to

<sup>1</sup> Activities included in the budget adopted by the Convention and the Protocol for the period up to the sixth session of the Meeting of the Parties to the Convention and the first session of the Meeting of the Parties to the Protocol contained in annex I of decision VI/4–II/4 were assigned priorities 1 and 2. Other workplan activities that were financed to the extent possible through earmarked contributions by Parties or through project funding are referred to as priority 3 activities.

global outreach should be processed and translated by the United Nations Conference Services and made available in the six United Nations languages;

7. *Decide* that during the intersessional period the Working Group on Environmental Impact Assessment and Strategic Environmental Assessment should meet in spring 2018, spring 2019 and autumn 2019, and that the Implementation Committee should hold in total nine sessions, meeting three times a year — in spring, autumn and winter;

8. *Request* the secretariat to prepare the provisional agendas and other formal documentation for and reports on the meetings mentioned in paragraph 7 above and to issue these documents in the three official languages of ECE.

<sup>a</sup> The financing of the activities foreseen in the budget of the Convention and its Protocol for 2017–2020, to be set out in annex I to draft decision [VII/4–III/4], will be contingent on sufficient funds being made available by Parties through their voluntary contributions to the Convention trust fund.

## Draft decision VII/4–III/4

### Budget, financial arrangements and financial assistance

*The Meeting of the Parties to the Convention and the Meeting of the Parties to the Convention serving as the Meeting of the Parties to the Protocol (Meeting of the Parties to the Protocol), meeting in joint session,*

*Recalling* decision VI/4–II/4 of the Meeting of the Parties to the Convention on Environmental Impact Assessment in a Transboundary Context and the Meeting of the Parties of the Protocol on Strategic Environmental Assessment, on the budget, financial arrangements and financial assistance for the period up to the seventh session of the Meeting of the Parties to the Convention and the third session of the Meeting of the Parties to the Protocol,

*Also recalling* the financial strategy adopted through decision VI/4–II/4 (annex II), including with a view to improving the sustainable availability and predictability of resources under the Convention and the Protocol and to ensuring a more equitable and proportionate sharing of the financial burden among the donors,

*Recognizing* the wish of the Parties for a high degree of transparency and accountability regarding the status of and developments in the financing of activities under the Convention and the Protocol,

*Welcoming* the biannual financial reports prepared by the secretariat during the present intersessional period

*Acknowledging with appreciation* the contributions made in cash and in kind in the present intersessional period, while noting with regret that the financial burden was not evenly distributed, with three donors providing the bulk of the funding and with several Parties not contributing at all,

*Recognizing* the need to:

- (a) Ensure that sufficient resources are available to implement the workplan for the next intersessional period, 2017–2020, adopted through decision VII/3–III/3,
- (b) Increase the willingness of donors to make further financial and in-kind contributions, as well as assist in financial and project management,
- (c) Ensure that the financing of activities under the Convention and the Protocol should be distributed among as many Parties and non-Parties as possible,

*Aware* of the importance of wide participation by the Parties in activities under the Convention and the Protocol in order to ensure progress,

*Aware also* of the need to facilitate the participation of certain countries with economies in transition that may otherwise not be able to take part,

*Recalling* decision II/14 of the Meeting of the Parties to the Convention, which amends the Convention to allow United Nations Member States not members of the United Nations Economic Commission for Europe (ECE) to accede to the Convention, and also article 23, paragraph 3, of the Protocol, which allows United Nations Member States not members of ECE to accede to the Protocol,

1. *Agree* to maintain the existing scheme of financial contributions for covering the budgeted costs for the implementation of the workplan for the next intersessional

period, whereby Parties and signatories to the Convention and to the Protocol contribute an amount that they choose to pledge on a voluntary basis;

2. *Also agree* that, in line with paragraph 20 below, that work will continue during the intersessional period to ensure that the financial arrangements and the financial strategy foster the effective implementation of the workplan;

3. *Confirm* for State Parties the system of shares endorsed by decision III/10 of the Meeting of the Parties to the Convention, whereby countries make contributions equivalent in value to a number of shares of the budget;<sup>2</sup>

4. *Urge* all Parties to contribute to ensuring sustainable funding of activities and an equitable and proportionate sharing of the financial burden among the Parties and also invite signatories, other interested States, organizations and international financial institutions to contribute;

5. *Strongly urge* Parties that have so far only committed limited funds or in-kind contributions to raise their contributions during the current and future budget cycles;

6. *Request* donors to pledge, where possible, their yearly or multi-annual financial and in-kind contributions, prior to the adoption of the workplan and the budget by the Meetings of the Parties.

7. [*Recognize* the commitment by the European Union to contribute 2.5 per cent of the total amount not covered by the United Nations regular budget for priority 1 activities of the workplan of the Convention and its Protocol and its intention to maintain its annual pledge of €50,000 towards the combined costs of the workplan for the next intersessional period, 2017–2020, until that amount becomes less than 2.5 per cent of the total, while noting that this is subject to annual endorsement by the budgetary authorities of the European Union and is without prejudice to paragraph 1 above];

8. *Adopt* the report prepared by the secretariat on the budget and financial arrangements during the present intersessional period (ECE/MP.EIA/2017/...–ECE/MP.EIA/SEA/2017/...);

9. *Decide* that activities under the workplan for 2017–2020 that are included in the budget of the Convention and the Protocol for that same period, as set out in the annex to this decision, and which are not covered by the United Nations regular budget, should be covered by contributions of [1,168] shares of US\$ 1,000 each, of which [790] shares would cover the core (priority 1) requirements and [378] shares would cover the remaining non-core (priority 2) requirements;

10. *Agree* the budget of the Convention and its Protocol for 2017–2020, as set out in the annex hereto;

11. *Also agree* that contributions shall be allocated to the budgets of the individual items in the budget table contained in the annex, in the order of priority set for each item [unless a contributor specifies that a contribution should be allocated to a particular item in the budget]; where funds remain after the completion of such items, the surplus shall be transferred to the overall budget to be spent on the budget items in the order of priority set for each item;

12. *Further agree* that financial contributions should preferably be made towards the overall implementation of the workplan;

---

<sup>2</sup> Language to be modified based on the agreement of the “financial scheme”.

13. *Request* that Parties seek to transfer their contributions to the ECE Trust Fund on Local Technical Cooperation under the Convention and the Protocol as early as possible in their budget year and, insofar as possible, contributions for a given calendar year should be made by the end of the preceding year so as to secure payment of staff costs, and to provide greater certainty for future financial and project management;

14. *Request* the secretariat, to prepare and submit to the Bureau annual financial reports with a view to assisting in the preparation of the report to the Meetings of the Parties to the Convention and the Protocol, at their eighth and fourth sessions, respectively, in accordance with paragraph 18 below, and further request the Bureau to consider the reports and to agree their circulation to the Parties;

15. *Also request* the secretariat to include in the reports information on the resources available (including in-kind contributions and United Nations programme support) and the expenditure, as well as highlighting significant developments;

16. *Further request* the secretariat to provide Parties with timely reminders concerning outstanding pledges;

17. *Decide* that the Executive Secretary of ECE has authority, after consultations with the Bureau, to make adjustments to the budget, up to a maximum of 10 per cent, where such adjustments are necessary before the next sessions of the Meetings of Parties, and that Parties are promptly informed of such adjustments;

18. *Request* the secretariat, in accordance with the financial rules of the United Nations, to monitor the expenditure of the funds and to prepare a report for the next sessions of the Meetings of the Parties, based on the information contained in the annual reports and giving a clear indication of the significant developments during the period in order that Parties can best meet future demands for resources under the Convention and its Protocol;

19. *Request* the Executive Secretary of ECE to seek additional staff funded by the regular budget of the United Nations to provide long-term and stable secretariat functions;

20. *Decide* that the Working Group on Environmental Impact Assessment and Strategic Environmental Assessment shall prepare a further draft decision on financial arrangements for adoption by the Meetings of the Parties to the Convention and the Protocol, at their eighth and fourth sessions, respectively, based on experience gained in the meantime under the financial arrangements adopted at the present joint session;

21. *Call upon* countries with economies in transition to finance to the extent possible their own participation in the activities under the Convention and its Protocol in order to ensure that the limited funds available are used efficiently;

22. *Urge* Parties and encourage non-Parties and relevant international organizations to contribute financial resources to enable countries with economies in transition and non-governmental organizations to participate in the meetings under the Convention and its Protocol;

23. *Decide* that securing proper staffing of the secretariat has priority above other activities, including financial support to participants in formal meetings and that, among participants, priority should be given to representatives of Parties, then of non-Parties and then of non-governmental organizations;

24. *Recommend* that the Convention and its Protocol should apply the guiding criteria established and periodically updated by the Committee on Environmental Policy for financial assistance to support the participation of experts and representatives from countries with economies in transition in meetings and workshops organized within the

framework of the Convention and its Protocol and other relevant activities, depending upon the availability of funds for this purpose;

25. *Request* the secretariat to grant, subject to the availability of funds for this purpose, in accordance with the budget decided by the Meeting of the Parties, financial assistance to designated experts from non-governmental organizations identified by the Bureau for their participation in meetings under the Convention and under the Protocol, unless otherwise decided by the Working Group on Environmental Impact Assessment and Strategic Environmental Assessment;

26. *Decide* that the Bureau shall, depending on the availability of funding for this purpose, in accordance with the budget decided by the Meeting of the Parties, and subject to priority being given to funding the workplan, examine requests for possible financial assistance for the participation by representatives and experts from States outside the ECE region in meetings under the Convention and its Protocol.

## Decision VII/5–III/5

### Guidance on land-use planning, the siting of hazardous activities and related safety aspects

*The Meeting of the Parties to the Convention and the Meeting of the Parties to the Convention serving as the Meeting of the Parties to the Protocol (Meeting of the Parties to the Protocol), meeting in joint session,*

*Recognizing* the need to more effectively mitigate the effects of possible industrial accidents and the consequences on human health, the environment and cultural heritage within countries and across borders,

*Acknowledging* important interlinkages, synergies and complementarities between the obligations of the Convention on Environmental Impact Assessment in a Transboundary Context, the Protocol on Strategic Environmental Assessment and the Convention on the Transboundary Effects of Industrial Accidents (Industrial Accidents Convention) in the area of land-use planning, safety and siting of hazardous activities,

*Convinced* of the benefits of the application of these treaty obligations in a mutually consistent and complementary manner,

*Aware* of the challenges in the practical implementation of these legal instruments within and across countries in relation to land-use planning, safety and hazardous industrial activities,

*Wishing* to support public authorities and practitioners in applying the relevant treaty obligations.

*Having considered* the outcome of the workshop organized jointly with the Working Group on the Development of the Convention under the Industrial Accidents Convention (Geneva, 13 April 2016), which highlighted the importance of exchanging information and experiences and promoting synergies and cooperation among stakeholders at the national and international levels,

*Having also considered* the two parts of the draft guidance on land-use planning, the siting of hazardous activities and related safety aspects — divided into policy and legal guidance and technical guidance,

1. *Recognize* the need to support competent public authorities and practitioners in applying the relevant treaty obligations;
2. *Adopt* the policy and legal part of the guidance on land-use planning, the siting of hazardous activities and related safety aspects;
3. *Take note* of the technical part of the guidance;
4. *Invite* Parties to promote the implementation of the guidance as well as cooperation and consultation among land-use planners, environmental assessment experts and industrial safety specialists;
5. *Invite* the relevant treaty body secretariats to publish the guidance.

## Decision VII/7–III/6

### Development of a strategy and an action plan for the future application of the Convention and the Protocol

*The Meeting of the Parties to the Convention and the Meeting of the Parties to the Convention serving as the Meeting of the Parties to the Protocol (Meeting of the Parties to the Protocol), meeting in joint session,*

*Recognizing* the important contribution of the Convention on Environmental Impact Assessment in a Transboundary Context and its Protocol on Strategic Environmental Assessment to improving international cooperation, the integration of environment and health concerns into development activities, environmental governance and transparency in planning and decision-making,

*Convinced* that the Convention and the Protocol continue to be effective instruments in fostering environmentally sound and sustainable development, and believing in their potential to contribute to countries' implementation of a wide range of Sustainable Development Goals, as set out in the 2030 Agenda for Sustainable Development,

*Conscious* that, despite progress in implementing the Convention and the Protocol, challenges remain, and that new important environmental and health problems have emerged since the adoption of the treaties,

*Recalling* their decision VI/5–II/5 on accession by Member States of the United Nations not members of the United Nations Economic Commission for Europe, and the 2014 Geneva Declaration (part B) regarding the future global application of the Convention and the Protocol,

*Wishing* to be able to respond both to the remaining and the new challenges and to adapt to the changing environment, focusing on the key priority activities, and building and enhancing partnerships and cooperation with relevant international treaties and processes,

1. *Decide* to include in the Convention and the Protocol workplan for the next intersessional period the elaboration, with the assistance of a consultant, of a long-term strategy with an action plan that will:

(a) Set a vision for the next [10] years and beyond to address priorities and to meet challenges, including with respect to climate change, biodiversity, [nuclear] energy, urban planning, [...];

(b) Set priorities on the strategic and operational level to ensure that the best use is made of scarce resources in the Parties and in the secretariat,

(c) Identify future activities, partnerships and funding mechanisms, including with a view to:

(i) Promoting the implementation of the Convention and the Protocol globally, raising awareness on these instruments and their achievements and benefits, and promoting cooperation and exchange of experience with countries outside the ECE region;

(ii) Contributing to the achievement of relevant Sustainable Development Goals and targets;

(iii) Enhancing cooperation with other international conventions and processes within and beyond the ECE region;

2. *Agree* that the long-term strategy and the action-plan should build, inter alia, on the outcomes and background material of the brainstorming session on the future of the Convention and the Protocol, the workshop on the global application of the two treaties held at the sixth meeting of the Working Group on Environmental Impact Assessment and Strategic Environmental Assessment, the reviews of implementation of the Convention and the Protocol and the external evaluation of ECE activities;

3. *Invite* Parties, non-Parties, and other stakeholders to lead and to contribute to work under this activity, and also invite the secretariat to support the work;

4. *Decide* that the draft long-term strategy and the action plan will be submitted for adoption to the Meetings of the Parties to the Convention and the Protocol at their eighth and fourth sessions, respectively, and that they will be implemented through actions and decisions agreed by Meetings of the Parties;

5. *Further decide* to assess progress in the implementation of the strategy and the action plan at sessions of the Meetings of the Parties.
