## SDG WATER EVENT

"SDG Water – Sharing Experiences around Monitoring at Country Level"  
08th November 2017, 10:00-17:00  
Allresto, Effingerstrasse 20, 3008 Bern

### Agenda

Time	Agenda Item
10.00-10.10	<b>Introduction</b> <i>Background, objectives, programme</i>
10.10-11.00	<b>The framework for SDG 6 monitoring and implementation</b> <i>Update on the implementation of the Agenda 2030 in Switzerland, on the Global Water Architecture and on the Integrated Monitoring Initiative for SDG 6</i>
11.00-11.15	<b>Lessons learned from the SDG 6 monitoring pilot process in the Netherlands</b> <i>Presentation from the Dutch Ministry of Infrastructure and Environment</i>

## Global workshop on monitoring SDG 6

9 October, 2017

The UN-Water Integrated Monitoring Initiative for SDG 6 is organizing a global workshop in November in The Hague, the Netherlands, gathering country representatives from across the world as well UN-Water Members and Partners.

The purpose of the workshop is to provide a platform for sharing experiences and reviewing results from 2016-2017 data collection efforts to establish a baseline for SDG 6, and for learning and preparing for future monitoring.

The background documents will be continuously updated on this page.

# When preparing the Voluntary National Review, have you considered activities implemented under the Protocol?

## Poster from FOEN in The Hague...

### BASELINE SITUATION SDG 6 GLOBAL INDICATORS

Indicator	Description	Value	Comments
6.1.1	Proportion of population using safely managed drinking water services	100 %	
6.2.1	Proportion of population using safely managed sanitation services, including a hand-washing facility with soap and water	100 %	Responsibility at Federal Food Safety and Veterinary Office, compliant to UNECE Protocol on <a href="#">Water and Health</a>
6.3.1	Proportion of wastewater safely treated	98 %	
6.3.2	Proportion of bodies of water with good ambient water quality	100 %	<a href="#">Indicator does not capture the insufficient water quality of small rivers in CH</a>
6.4.1	Change in water-use efficiency over time	n.a.	<a href="#">Indicator not reproducible due to missing data</a>
6.4.2	Level of water stress: freshwater withdrawal as a proportion of available freshwater resources	n.a.	<a href="#">Indicator not reproducible due to missing data</a>
6.5.1	Degree of integrated water resources management implementation (0-100)	81 %	<a href="#">Complex water governance in CH</a>
6.5.2	Proportion of transboundary basin area with an operational arrangement for water cooperation	93 %	<a href="#">Surface water considered</a>

average drinking water consumption per day per capita in Switzerland.

## Challenges, lessons learned and recommendations your country would like to share with other countries preparing national voluntary reviews on SDG 6?

- \* Intensive coordination in place for the whole program
- \* The attribution of the leadership generates frustrations from different experts ( water, nutrition, ... )
- \* A lot of different lead agencies have been identified throughout the administration (Health, Environment, Food, ... )
- \* Important to be informed of the final results !
