

# The Water Convention and the meeting of the Working Group on Integrated Water Resources Management (IWRM)

*Introduction*

**Lea Kauppi**

**Co-chair of the Meeting of the Working group on IWRM**

# The Water Convention: What is it for?

**Objective:** Protect and ensure the quantity, quality and sustainable use of transboundary water resources by facilitating cooperation

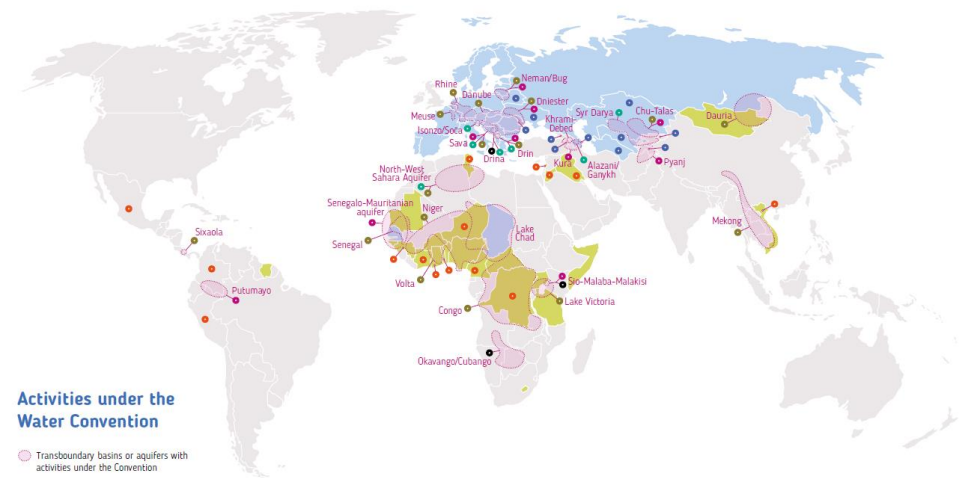

→ Support to transboundary water cooperation (initially in the pan-European region, now globally) for the sustainability of water resources

1992: Signature

1996: Entry into force

2016: Effectively open for accession to all UN Member States

2018: Accession by Chad and Senegal, 43 Parties

## Activities under the Water Convention

Transboundary basins or aquifers with activities under the Convention

## Areas of work

- Support to the development of agreements and the establishment of joint bodies
- Identification, assessment and communication of the benefits of transboundary water cooperation
- Assessment and promotion of the Water-Food-energy-ecosystems nexus in transboundary basins

- Adaptation to climate change in transboundary basins
- Opening of the Convention, promotion and partnerships
