

Planned and possible future activities on monitoring, assessment information exchange under the Water Convention

Seppo Rekolainen
Ministry of Agriculture and Forestry
Finland

Proposed activities in 2020-2021

- * **Organize regional workshops** on monitoring and assessment and information exchange
- * Review the **publication Strategies for Monitoring and Assessment of Transboundary Rivers, Lakes and Groundwaters** for possible re-issuing as a version for global use (with any necessary updates); possibly feedback the Strategies
- * Continue the reflection on the financing and sustainability of monitoring and information exchange on the occasion of the **Global workshop on financing transboundary cooperation** in 2020 to be organized under the Water Convention

Topics/activities proposed for consideration for the programme of work 2022-2024

- * Collection of **lessons learned and good practices in transboundary data exchange** (initiated at the Global Workshop). Assess need for developing guidance or recommendations
- * Organizing **training workshops or regional workshops/sessions** on monitoring & data
- * Providing **tailored assistance and support** for developing joint or coordinated monitoring or data exchange, including developing related strategies
- * Inventory or a desk **review of technological developments** that can support monitoring and assessment, development of devoted guiding material or optionally revise & update the technical M & A guidelines
