

National Waste Management Strategy and Action Plan

22 SETEMEBER 2015
KHATUNA GOGALADZE

Project: Development of Legislation for Waste Management as part of the implementation of the EU-Georgia Association Agreement

- National Waste Management Strategy
- National Waste Management Action Plan
- Draft Law on transboundary movement of waste (Basel law)
- By-laws on:
 - Hazardous waste
 - Transport of waste
 - Registration of waste
- Funded by: EU
- Implemented by: Particip GmbH

Content of the Strategy

- **EXISTING SITUATION AND CHALLENGES**
- **WASTE MANAGEMENT ROAD MAP**
 - Hierarchy and Principles
 - Vision, Objectives and Targets
- **EFFECTS OF THE STRATEGY**
- **LOGICAL FRAMEWORK**

Strategy Goal and Basis

GOAL:

Development of the Georgian waste management to be in harmony with the European waste management policy

BASIS:

- WASTE Management Code
- EU-Georgia Association Agreement (AA)
- International treaties

Structure of the Strategy and Action Plan

Main Nine Section of the Strategy and Action Plan

- Legislation
- Waste Planning
- Waste Collection and Transport
- Landfills
- Prevention, reuse, recycling and recovery
- Cost recovery
- Extended Producers Responsibility (EPR)
- Waste Data
- Management capacities

Logical Framework

Vision: “Georgia to become a preventing and recycling society”

Objectives

- | | |
|------------|---|
| O.1 | Waste Management legislation in harmony with EU requirements and International Conventions transposed, implemented and enforced |
| O.2 | Waste Management Planning system established and implemented nationally and locally |
| O.3 | An effective waste collection and transportation developed and implemented |
| O.4 | Waste disposed in a safe manner for the human health and environment |
| O.5 | Waste prevented, reused, recycled and/or recovered to the extent possible |
| O.6 | Waste Management Costs fully covered in accordance with the Polluter Pays Principle |
| O.7 | Extended Producers Responsibility promoted and implemented to the extent possible |
| O.8 | Waste Data and Information Management system developed and implemented |
| O.9 | Capacities strengthened for the national and local public sector, as well as private companies and general public to meet the requirements of the development of the WM system |

Objective 5: Waste prevented, reused, recycled and/or recovered to the extent possible (example)

	Targets	Deadline
T 5.1	Source separation for paper, plastic, glass and metal established	2025
T 5.2	National minimum targets for separated waste to be managed: 70% Paper recycled 50% Glass recycled 90% Metal recycled 70% plastic recycled	2025
T 5.3	Waste prevention promoted and implemented by companies	2020
T 5.4	Waste not reused or recycled to be recovered to the extent possible	2030

Action Plan

- Deadlines
- Structure and Content
- Objectives, Targets, Actions
 - Implementation period
 - Responsible institutions
 - Estimated cost (where possible)
