UN
DP

UNDP Regional Centre for Europe and CIS

Provides management support, policy advice, knowledge and expertise to governments and civil society:

- Through cooperation with the *UNDP local offices* in the region,
- By implementing *regional programming*.

Practice areas: *governance, poverty, and energy and environment.*

The Energy and Environment practice focuses on the following thematic areas: *water governance, biodiversity protection, sustainable energy sources, and integrated environmental policies (including SEA).*

UN
DP

Strategic Environmental Assessment – Promotion and Capacity Building

Target countries: Armenia, Georgia, Moldova, Ukraine,
and Belarus

In cooperation with the **Regional Environmental Centre for
Central and Eastern Europe (REC)**

Overall objective: to improve decision-making process in
the selected NIS countries, by promoting the implementation
of Strategic Environmental Assessment as the key
instrument for integrating environmental concerns into the
development frameworks of the countries.

UN
DP

Project outcomes (1)

1. *Analysis of the current status of environmental assessment and identification of corresponding capacity building (CB) needs for SEA / SEA Protocol implementation*
2. Improved national capacity for SEA / SEA Protocol Implementation by *implementing CB activities* selected by the countries in their needs assessment analysis

UN
DP

Project outcomes (2)

3. *Effectiveness and quality of the implemented capacity building activities evaluated*
4. *The follow-up steps recommended in the form of outlines of the national capacity building strategies y leading countries to effective SEA application*

Experience and lessons learned from the SEA application in the countries of Central and Eastern Europe

UN
DP

Project activities (1)

- I. Development of *5 national country reviews* assessing the current status of environmental assessment and identifying the needs for capacity building related to SEA / SEA Protocol implementation;

- II. *Selected CB activities*: national kick-off workshops; pilot SEAs; legislation review and drafting; existing materials (SEA methodologies and guidelines) adoption to national needs; training and consultations;

UN
DP

Project activities (2)

- III. *National concluding workshops* evaluating the effectiveness and quality of implemented CB activities;
- IV. Development of the *outline for the national capacity building strategies* reflecting the further country needs for effective SEA application
