EaP GREEN

Greening Economies in the Eastern Neighbourhood (EaP GREEN) programme is a large regional programme implemented in 2013-2017 by the United Nations Economic Commission for Europe (ECE), OECD, UNEP, and UNIDO to assist the six European Union's Eastern Partnership (EaP) countries: Armenia, Azerbaijan, Belarus, Georgia, the Republic of Moldova and Ukraine, in their transition to green economy.

The programme is financed by the European Commission, the four implementing organisations and other donors.

EaP GREEN

The programme's overall objective is to assist the EaP countries ***to decouple economic growth from environmental degradation and resource depletion.***

The programme component that ECE is in charge of implementing, aims to ***promote the use of strategic environmental assessment (SEA) and environmental impact assessment (EIA) as essential planning tools for an environmentally sustainable economic development.***

SEA/EIA work-streams in EaP GREEN

- Revision of the existing national regulatory and legislative framework
 - Legal reviews and legal drafting
- Capacity building on SEA/EIA procedures
 - Trainings and workshops (national and sub-regional)
 - SEA/EIA pilots
- Strengthening of administrative capacities
 - Facilitating policy dialogue
 - Recommendations on institutional framework for SEA/EIA

Activities in Georgia: legal development
