## Output

# 18.2%

Share of UK electricity  
currently being generated  
by offshore wind

## 2541.6 GWh

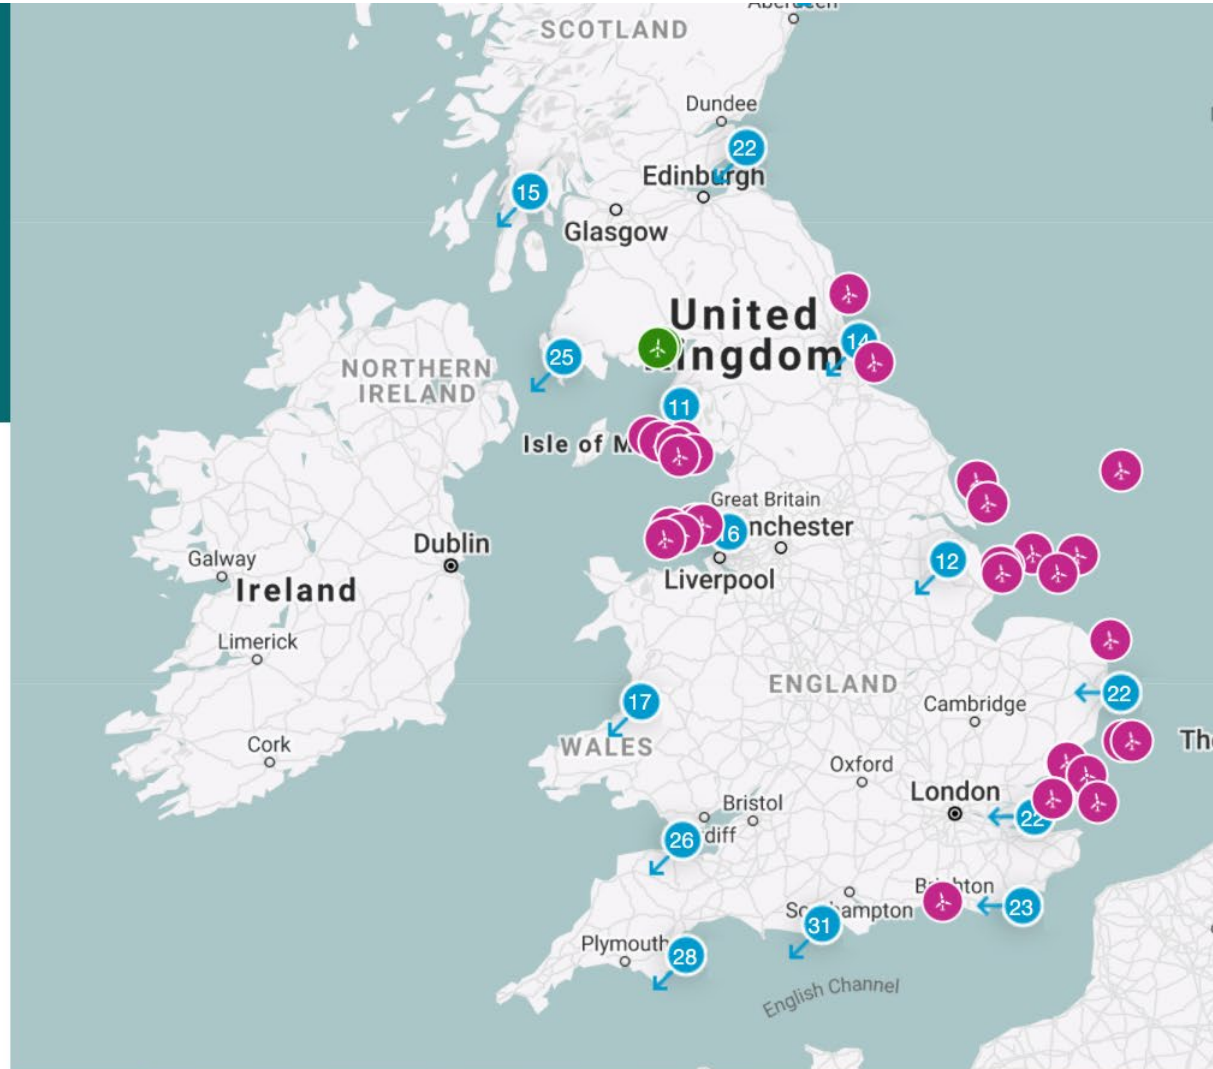

Total electricity generated by  
offshore wind in the previous  
month

## 25.3 TWh

Total electricity generated by  
offshore wind year to date

## 34.6 TWh

Total electricity generated by  
offshore wind in the last 12  
months\*

### Legend

- Cities
- ◇ Towns
- SEA area
- 10km buffer zone around SEA area
- 12mile limit
- National Monument Records, obstructions and cultural heritage sites.

Action funded by  
the European Union

## Impact Forecasting

1. Sandbank mobility
2. Changes to seabed morphology
3. Scouring of sediments
4. Changes to flow regime and wave direction
5. Changes to coastal sediment budgets
6. Loss of food resources for faunal groups
7. Interruption of migratory routes (fish)
8. Disturbance of birds
9. Bird strikes
10. Loss of shellfish beds
11. Impacts on fisheries

Action funded by  
the European Union

## Good Practices

- Established an offshore SEA Steering Group:
  - Provide advice to facilitate SEA process;
  - Promote stakeholder involvements;
  - Achieve timely preparation of quality documents.
- Online portal hosting all data collected during SEAs and EIAs.
- SEA recommendations / implementation auditing
  - Compilation of recommendations from SEAs and action status.
- SEA Research Programme:
  - Commission research in response to identified data gaps.
