

Template for providing information on:

**Good practices and success stories on mainstreaming gender equality in education and/or
ESD**

1. Name of country: Estonia
2. Name of organization/project/programme: Estonian Environmental Board
3. Good practice (title): an online database of environmental education (www.keskkonnaharidus.ee)
4. Target group: primarily school and kindergarten teachers, also environmental educators of nature-schools and environmental education centres ect.
5. Brief description of good practice: an **online database of environmental education (incl ESD topics)** (www.keskkonnaharidus.ee), which includes the contact details of the institutions offering environmental education programmes and programmes on sustainable development, irrespective of their affiliation or ownership. There are also listed the study programmes offered by these institutions that can be ordered by schools. The selection of study materials, worksheets, movie clips for educational purposes and calendar of events are also available in the database.
6. Useful links. In Estonian: www.keskkonnaharidus.ee, partly available in English: www.keskkonnaharidus.ee/en.
7. Useful contacts: MARI KALA, tel +372 799 0914; mari.kala@keskkonnaamet.ee; MARIS SEPP; tel +372 5304 7882, maris.sepp@keskkonnaamet.ee
8. Comments: Schools and kindergartens can apply for the grants for the study-visits from the environmental awareness programme of **the foundation Environmental Investment Centre**. That foundation is acting in the area of government of the Ministry of Finance Affairs. Participation in educational programmes is free for children. Online database is an important tool for teachers to find suitable study programme in surroundings, in environmental education centres , museums etc.
