

Introduction

Technical workshop

Project for Bulgaria, Romania and Serbia on joint management of transboundary emergencies from spills of hazardous substance into the Danube River

Drobeta-Turnu Severin, Romania, 16-18 June 2009

Objective of the project

strengthen the effectiveness in organizing emergency preparedness/response through further optimizing the procedures especially in view of the cooperation in a transboundary context

- blueprints for up-to-date organization of emergency procedures
- update or elaboration of emergency plans (off-site plan for Prahovo / Negotin region)

How to reach project objective?

Three project phases (agreed at project's kick-off meeting):

Technical workshop – to learn about emergency procedures and prepare for an in-field exercise

In-field exercise – to test the procedures and start analysis how to further optimize the emergency management

- draw-up blueprints
- draw-up/update contingency plans

Final workshop – to discuss the results and agree on the continuation

Objective for the technical workshop

- Discuss the similarities and differences in crisis management procedures
- Develop a general scenario for the joint in-field exercise

Conduct of the workshop

Session I – procedures for responding to emergency situations
