

Convention on the Transboundary Effects of Industrial Accidents

Ninth meeting of the Conference of the Parties
Ljubljana, 28–30 November 2016

REPUBLIC OF SLOVENIA
MINISTRY OF THE ENVIRONMENT
AND SPATIAL PLANNING

UNECE

- Fostering the implementation of the 2030 Agenda for Sustainable Development and the Sendai Framework for Disaster Risk Reduction 2015–2030

Session I

- How has and will the adoption of the SDGs and the Sendai Framework impact national policies, initiatives and programmes related to industrial accident prevention, preparedness and response?
- Does the private sector have a role to play?
- What are the main challenges faced in implementing the SDGs and the Sendai Framework in relation to industrial and chemical accidents prevention, preparedness and response?
- How can UNECE and OECD support States in overcoming the above challenges? Which other actors are important?

- Fostering the implementation of the 2030 Agenda for Sustainable Development and the Sendai Framework for Disaster Risk Reduction 2015–2030

Session IV

- What opportunities do the sustainable development goals and disaster risk reduction commitments present?
- How can these opportunities be used to ensure that industrial safety remains high on policymakers' agendas?
- How to cooperate most effectively with other parts of the chemicals or environmental management field in order to get more visibility for industrial accidents prevention and encourage enhanced implementation efforts?
- How to engage the private sector??

- Fostering the implementation of the 2030 Agenda for Sustainable Development and the Sendai Framework for Disaster Risk Reduction 2015–2030
