

Training session on the identification of hazardous activities

Organization of work

Minsk (Belarus), 21-22 October 2008

Lukasz Wyrowski

Sessions

SESSION I – good practices for collecting, processing, maintaining and updating information on hazardous activities

SESSION II – hands-on segment on processing and analysing data on industrial facilities

- application of Annex I
- application of scenarios, risk assessment and location criteria (air release / water release)

SESSION III – wrap up

Way of work

Introduction to the sessions I and II / sub-sessions (under session II) through presentations delivered by experts;

Main part under each session /sub-session – work in groups (discussion, analysis)

Session I - discussions on the approaches, problems faced, possible ways forward, identification of elements to be improved in national structures for collecting, processing, maintaining or updating information on hazardous activities, elaboration of possible ways forward

Session II - discussion and analysis of data provided through questionnaires, discussion on the calculation of quantities, use of categories, use of sources of information on chemicals, case studies on model activity and exemplary activities in EECCA and SEE countries with
- (a) effect on water or (b) effect on air - in case of accident

Work in Groups sessions I and II

Armenia – Ukraine – Romania	Bernard Gay, Bert Wolting
Azerbaijan – Belarus	Neil Manning, Tomas Trcka
Croatia – Georgia – Serbia	Domien Claessens, Nikolay Savov
Kazakhstan – Moldova + (observer from the Russian Federation)	Henk van der Veen, Lukasz Wyrowski

Way of work

Session III – wrap-up by EECCA and SEE experts

- Lessons learnt from the training session
- Ways forward to further improve the process of identification on hazardous activities

INPUT to national **ACTION PLANS**
and execution / implementation of **ACTIONS**

Action plan

Tasks IDENTIFICATION	Identified gaps	Way forward
Collection of data		
Analysis of data (application of annex I, scenarios, location criteria)		
Elaboration of lists		
Approval of lists		
Maintenance and update of list		
Tasks NOTIFICATION		

Objectives to be reached with the training: Start the process to improve the identification of hazardous activities

Results to be reached following the training: Improve the process on the identification; Establish adequately the list of hazardous activities and Notify them to neighbouring countries

Time frame – 1-2 years

Keeping in mind the objectives and expected results

**Let us have a fruitful
training session**
