IWA Specialist groups

- There are 48 specialist groups within IWA (see <http://www.iwahq.org>)
- They organize around 35 international conferences each year
- Papers from the specialist groups are the core content of WST

SG Climate Change

OBJECTIVES of the Specialist Group are

- 1) to identify climate-related impacts and risks in water utility operations and water resources management,
- 2) to increase awareness of climate change impacts on water utility operations and water management,
- 3) to stimulate adaptive actions in utility operations and water management, with the aim to enhance climate robustness, and
- 4) to connect the different communities involved (water utilities, water management, and climate change research).

ACTIVITIES of the Specialist Group

- Publishing a newsletter
- Maintaining an electronic discussion forum, and
- Organising regular group meetings, workshops, and conferences.

IWA Conferences & Events

- **Biennial World Water Congress and Exhibition**
 - 3,000+ participants
 - Technical presentations
 - Scientific poster displays
 - Workshops and discussion groups
 - Innovative technology on display
- **Specialty and regional conferences**
 - 40+ held / 6,000 attendees – every year
 - Driven by IWA members with the support of IWAs Specialist Groups or Regions
- **Leading-Edge Technology conference**
 - World's top water technology experts
 - The leading global event on water and wastewater process and treatment technology

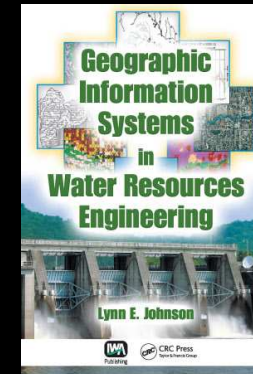

Publishing

Leading international publisher
on all aspects of water, wastewater and
related environmental fields

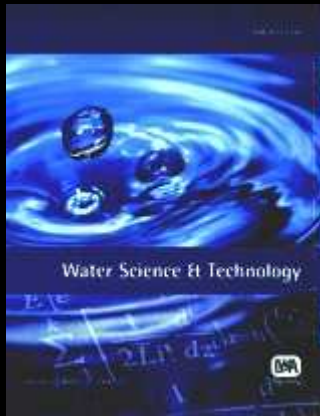

New Books...

- *** Industrial Wastewater Treatment by Activated Sludge Derin Orhon, Fatos Germirli Babuna, Ozlem Karahan ***
- *** Public and Private Participation in the Water and Wastewater Sector Cledan Mandri-Perrott ***
- *** Geographic Information Systems in Water Resources Engineering :Lynn E. Johnson ***

Publishing

Launching 2009... a New Journal ...
Journal of Water and Climate

Editors:

Geoffrey Schladow, University of California, Davis, USA

Charles Ainger, The University of Cambridge, UK

Justin Brookes, The University of Adelaide, Australia

Journal of Water and Climate is devoted to publishing papers on all aspects of water science, technology, management and innovation in response to climate change.

We invite the submission of new papers through our online submission system on www.iwaponline.com

Please register for your free sample copy.

Conditions

- WHO prepares camera-ready copy at its own expense
- WHO purchases a certain number of books at the unit printing price and pays for shipment to WHO HQ
- Copyright agreement needed from the different authors
- Internal signature issues

Advantages

- Worldwide distribution at the risk and expense of the Publisher on behalf of WHO
- Sole and exclusive right granted to Publisher to print and publish, and a license jointly with WHO to market, distribute and sell.
- WHO publishes pdf file on web for free download
- Publisher pays indexation

Marketing services

- Email
 - Contents Alert Service (6000 registrants)
 - IWA Info Alert Service (2000 ++)
- Website / Internet
 - 200,000 hits per month
- Direct mail
- Conferences / exhibitions
- Advertising
 - Water 21 (10,000 copies per month)
