Lessons learned and good practices

Jos Timmerman

Alterra Wageningen UR

Rationale

Programme of work MoP November 2012:

- Compile, analyse, publish and disseminate lessons learned and good practices from the programme of pilot projects under the Convention

- Serve as complement to the *Guidance on Water and Adaptation to Climate Change*

How to identify lessons learned?

- Presentations

- Reports from workshops

- Literature survey

How to identify case studies?

- Pilot projects

- Other presentations from workshops

- Suggestions by Parties

- Call for case studies on the basis of lessons learned?

Contents

1. Introduction

2. Overview of lessons learned regarding climate change adaptation in transboundary basins
   - Description of the problem situation
   - Lesson learned to overcome the problem
   - 1-4 Case studies connected to the lessons learned

3. Conclusions/summary/way forward

ALTERRA
WAGENINGEN UR

Case description

- Geographic, demographic and hydrological information

- Problem situation, including climate change

- Some administrative information; organizations involved

- More detailed description of how the problem situation was solved or mitigated, i.e. how the lesson learned worked in practice

- Recommendations for others

Process

- Drafting group to prepare the publication (10-15 members)

- Review by

    - Task Force on Water and Climate

    - Working Group on Integrated Water Resources Management

Timeline

August 2013	INBO General Assembly, consultations with basins with potential good practices
31 October-1 November 2013	First meeting of the drafting group to discuss outline and selection of good practices
June-August 2014	Compilation of the first draft
8-10 October 2014	Task Force on Water and Climate
October – December 2014	Finalization of the document
March 2015	Launch and presentation at the **7th World Water Forum**
November 2015	7th session of the **Meeting of the Parties** to the Water Convention

Questions

1. What approach should be followed to identify the lessons learned, and which criteria should be used to select good practices linked to each lesson learned?

2. Are there any comments on the proposed structure of the publication?

3. Who should be part of the drafting group, how to select the members?

4. Are there any comments on the process? And on the timeline?
