

Water Resources Management based on the Hydrographic District

Radu Cazacu, deputy director Agency "Apele Moldovei"

NPD, Chisinau, June 15, 2018

Water Resources Management, main issues

- **Legislative framework**
- **Water resource management at hydrographic basin level**
- **Setting objectives for water resource management**
- **Planning of measures and activities to achieve the set objectives**
- **Monitoring of the implementation of river basin management plans**
- **Involve stakeholders in managing water resources**

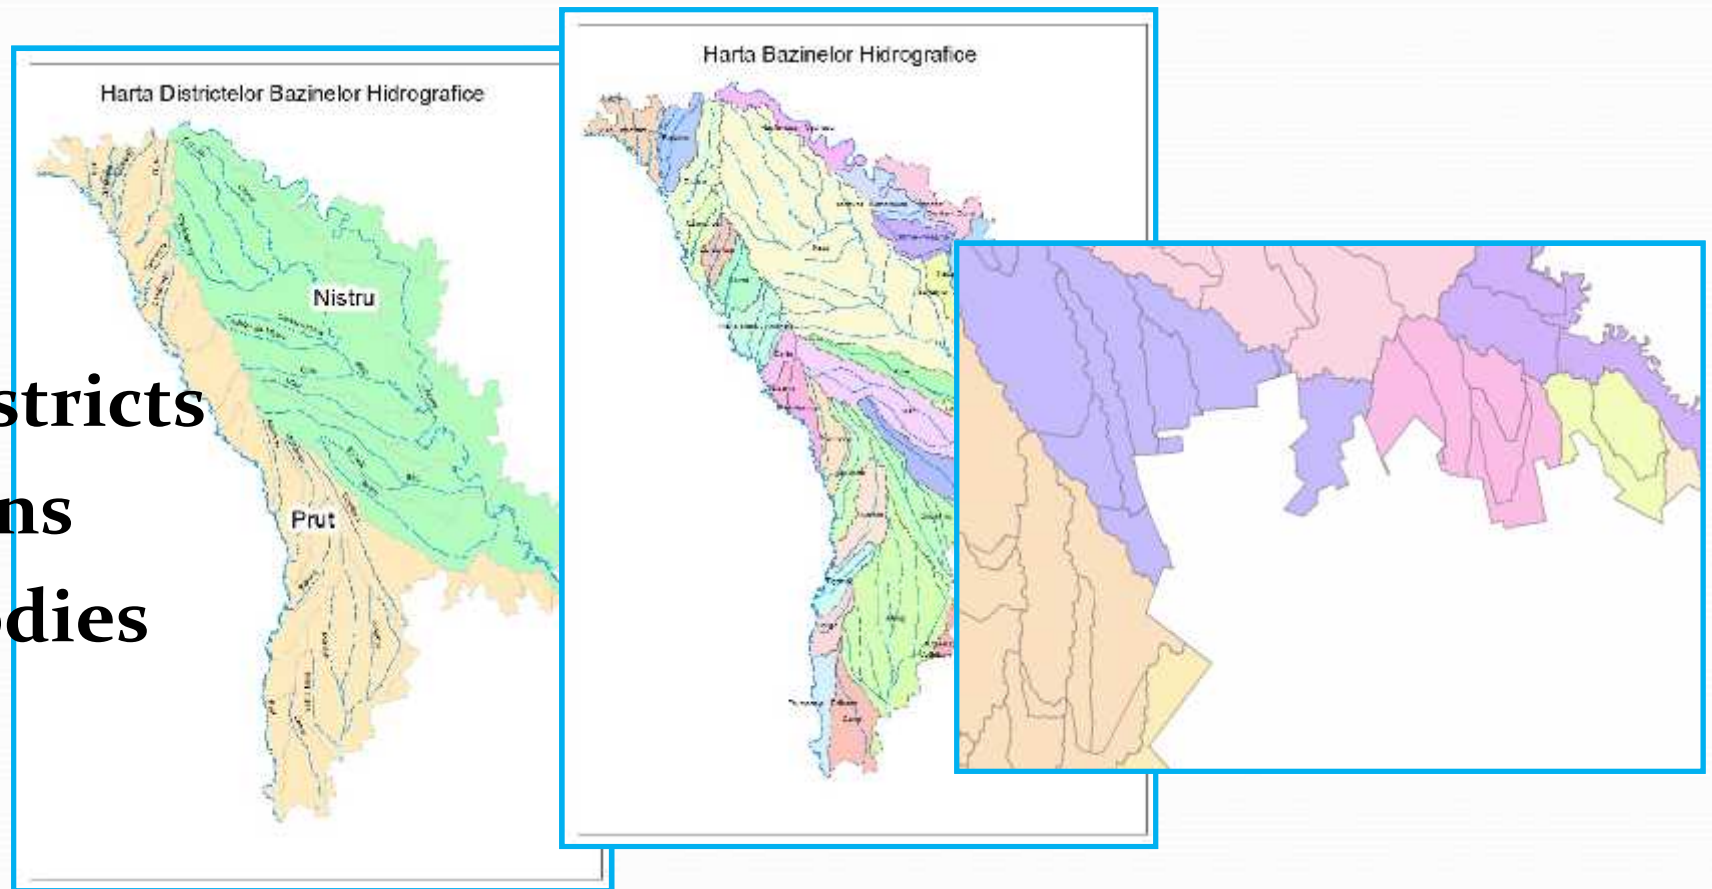

Legislative basis for the management of water resources on river basins

- **Water Law (No. 272 of 23.12.2011)**
- **Regulations for:**
 - **The way of setting up and running the river basin district committee**
 - **Monitoring and systematic evidence of the status of surface waters, groundwater and protected areas**
 - **Structure and contents of the State Water Cadastre**
 - **Structure and content of the Environmental Authorization Register for Special Use of Water**
 - **Water Quality Requirements for Water and Groundwater Quality Requirements**
 - **Requirements for the operation of wastewater collection systems in urban areas and for the operation of sewage treatment plants**
 - **Drought Management Planning and Flood Risk Management**
 - **more**

Water resource management at hydrographic basin level

- Basin Districts
- Sub-basins
- Water bodies

Setting objectives and planning measures

- **River Basin Management Plan of the Dniester River Basin**
- **River Basin District Management Plan Danube Prut and Black Sea**

Monitoring the implementation of Hydrographic Basin Management Plans

- **Monitoring:**
- **Apele Moldovei**
- **Basin Committees**
- **Assisting in the preparation of river basin management plans for the second cycle:**
- **the GEF project**
- **the EUWI + project**

Involve stakeholders in managing water resources

- **River Basin District Committee:**
- **The Committee of the Basin District "Nistru"**
- **Committee of the Basin District "Danube-Prut and Black Sea"**
