- *Mr. Holger Wallbaum (Professor of Sustainable building at Chalmers University of Technology, Gothenburg)*

¹ The speakers on this panel have recorded four podcasts on the theme of 'Climate change, environmental and health impacts on housing affordability'. Attendees are encouraged to listen to these interventions in advance of the webinar, as this session will be a Q&A only. The podcasts are accessible at: <https://anchor.fm/housing-europe/>

an initiative of

UN HABITAT
FOR A BETTER URBAN FUTURE

UNECE

10:50-11:00 | Digital Coffee Break

11:00-11:40 | “How can we make the necessary environmental sustainability and liveability upgrades to housing stocks without increasing costs for low- and moderate-income households?” (*moderated by Elena Szolgayova, #Housing2030 Co-Chair*)

Representatives of the national and local governments, social and affordable housing providers and policy experts will share their experiences of how housing policies, which are addressing the climate challenge, also address housing affordability and inclusion.

11:40-11:45 | Summary of the day’s discussions

- *Elena Szolgayova, #Housing2030 Co-Chair*
- *David Orr, #Housing2030 Co-Chair*

11:45 | Adjourn
