

## Session 2: «Integrated Approaches of Energy and Transportation Infrastructures for Cities»

**Reiner Keller,**

University of Augsburg, Germany

**EXPO 2017**  
• Future Energy •  
Astana Kazakhstan

# APPLIED DISCOURSE RESEARCH AS A TOOL FOR TRANSITION PROCESSES

PROF. DR. REINER KELLER, JUNE 2017

[HTTP://KELLERSSKAD.BLOGSPOT.DE/P/BLOG-PAGE.HTML](http://kellersskad.blogspot.de/p/blog-page.html)

## Discourses:

- ▣ Relations of knowledge and knowing
- ▣ Politics of knowledge and knowing

## Transition into smarter and more sustainable cities:

- ▣ Top down flows of knowledge vs. bottom up participation?
- ▣ Permanent permutations of interpretation: all the way down, all the way up

The need for collaborative process design:  
„smart urbanism“ (M. Hajer)

Applied discourse research as accompaniment of collaborative research:

-> stimulating new views, transforming matters of fact into matters of concern
