

## Session 4: «Designing Smart and Sustainable Urban Isles»

**Vladimir A. Sidorovich,**

Institute of Energy Efficient Building Technologies,

Russian Federation

**EXPO 2017**  
• Future Energy •  
Astana Kazakhstan

# Designing Smart and Sustainable Urban Isles

*Towards greater sustainability*

A view from Moscow  
by Vladimir Sidorovich

14 June 2017

**EXPO 2017**  
• Future Energy •  
Astana Kazakhstan

Uniform definition of Smart Cities  
(smart urban Isles) ?

Sustainability is the core (?)

# Moscow Smart City

- Huge range of electronic services; some of them:

Moscow City Transport Management System  
> 30 000 vehicles connected (public transport, garbage trucks..)

Metro free Wi-Fi (330 km of metro lines)

**Big brother is watching you!**

The centralized CCTV system includes > 200,000 cameras.

- Numerous international smart city awards

**But...**

Will it make a city smart ??

Lyublino Smart District (Quarter)

# Thank you!
