Programme of Work 2016-2017

- I. Capacity Building and International knowledge sharing
- II. Land Administration reviews
- III. Studies on selected topics in land Management

Programme of Work 2016-2017

Item I

Capacity Building and International knowledge sharing

Objective: To increase the capacity of UNECE member States to formulate policies on land administration and management.

- Organize four workshops in the UNECE region to allow for experience- and knowledge-sharing
- To improve the human capital of stakeholders and to enhance land management practices
- Present the work of the Working Party and provide advice on land management and land administration at workshops, conferences, seminars and other events focusing on land administration
- Identify and programme joint work and activities in close cooperation with international organizations on land administration issues.

Programme of Work 2016-2017

Item II

Land Administration Reviews

Objective: To provide, upon the request of a member State, an assessment of that member State's land administration systems, and issue guidelines for the enhancement of said systems.

To achieve this objective, the Working Party will, upon invitation by governments and subject to the availability of funding, develop member State land administration reviews as part of the UNECE country profiles on housing and land management

Programme of Work 2016-2017

Item III

Studies on selected topics in land management

Objective: To study issues in land management of interest to member States and to develop publications containing analyses of these issues to help them better understand the current status of land management and thus formulate more targeted and effective policies.

To achieve this objective, the Working Party will:

- Assist, in cooperation with the Committee on Housing and Land Management, in the development of Smart City Standards. This is part of the UNECE's project, "**United Smart Cities: Smart urban solutions for transition and developing countries**", which has produced smart city indicators
- Organize the dissemination of the conclusions and recommendations of the study "Formalizing the Informal: Challenges and Opportunities of Informal Settlements in South-East Europe" through the preparation of **technical guidelines on informal settlements**
- Establish, in cooperation with other international organizations, joint initiatives and projects, studies on **marine cadastres and address registries**
- Develop, in **cooperation with the Real Estate Market Advisory Group**, a compendium of best practices and recommendations on land and property valuation in collaboration with the World Bank.
