

The European Commission's science and knowledge service

Joint Research Centre

Carlos Moura

Stakeholder Meeting on the Active Ageing Index, Brussels, 17 June 2019

COIN – Competence Centre on Composite Indicators and Scoreboards

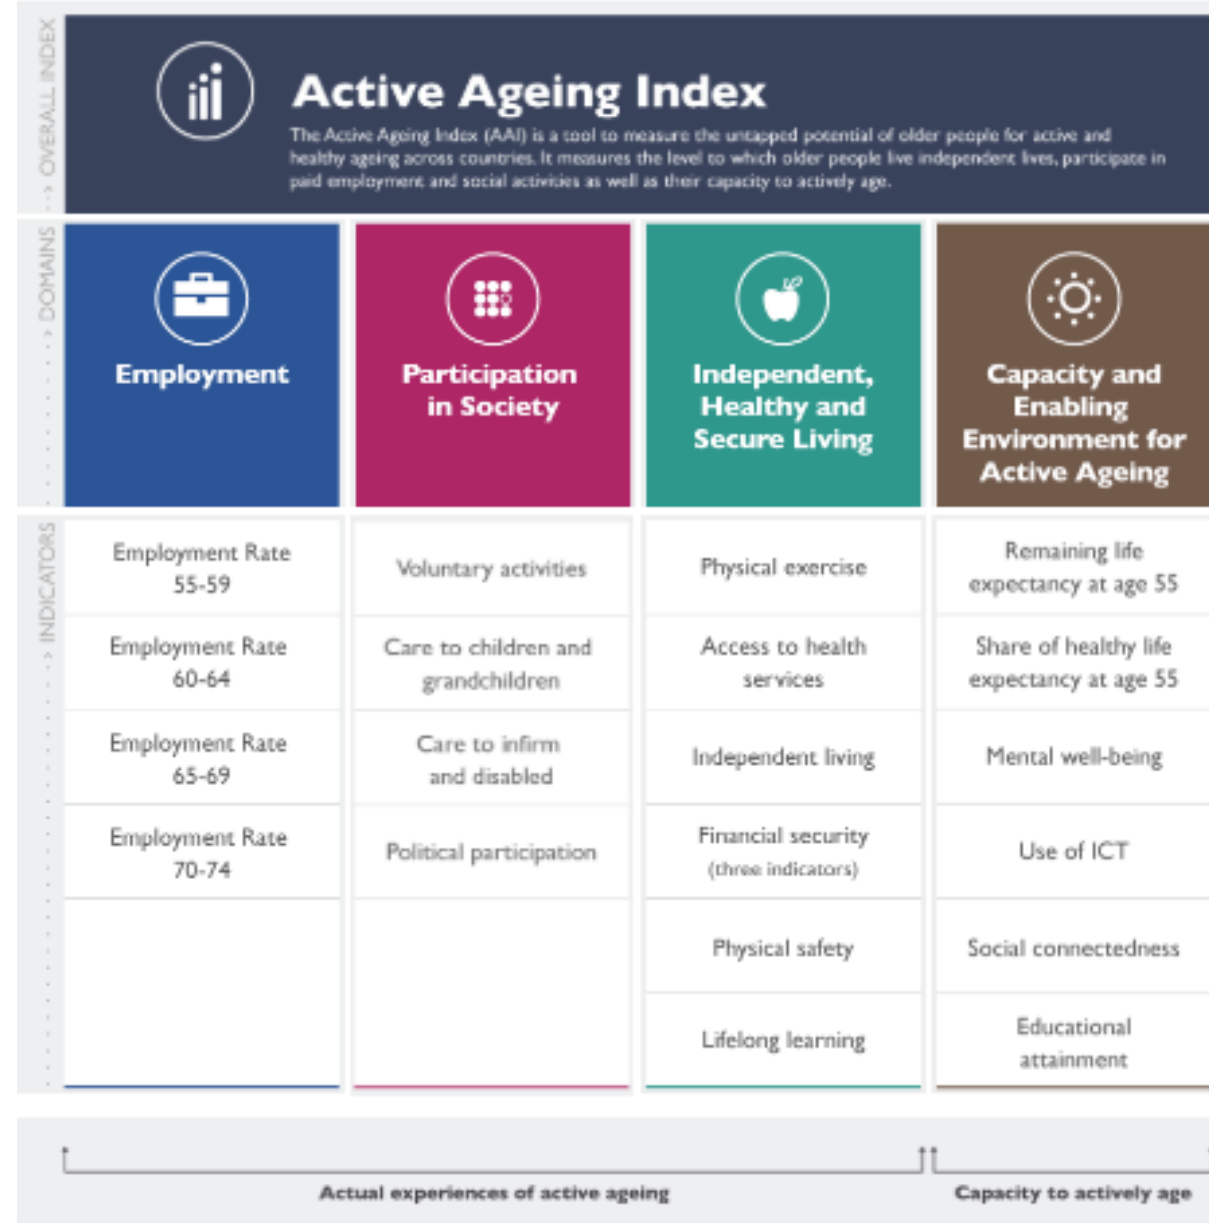

- Expertise on statistical methodologies and technical guidelines on the development of sound composite indicators.
- Auditing of more than 60 Composite Indicator: E.g, Global Innovation Index (INSEAD & World Intellectual Property Organisation), the Multidimensional Poverty Assignment Tool (UN International Fund for Agricultural Development), the Global Competitiveness Index (World Economic Forum), and the Corruption Perceptions Index (Transparency International)

COIN – Competence Centre on Composite Indicators and Scoreboards

- Providing Commission services covering all the steps of policy support, from inception with analysis of existing methodologies all the way through conception, implementation, dissemination and evaluation and monitoring.
- Providing interactive visual tools to help monitoring and data analysis and expand the scope of dissemination to broader audiences

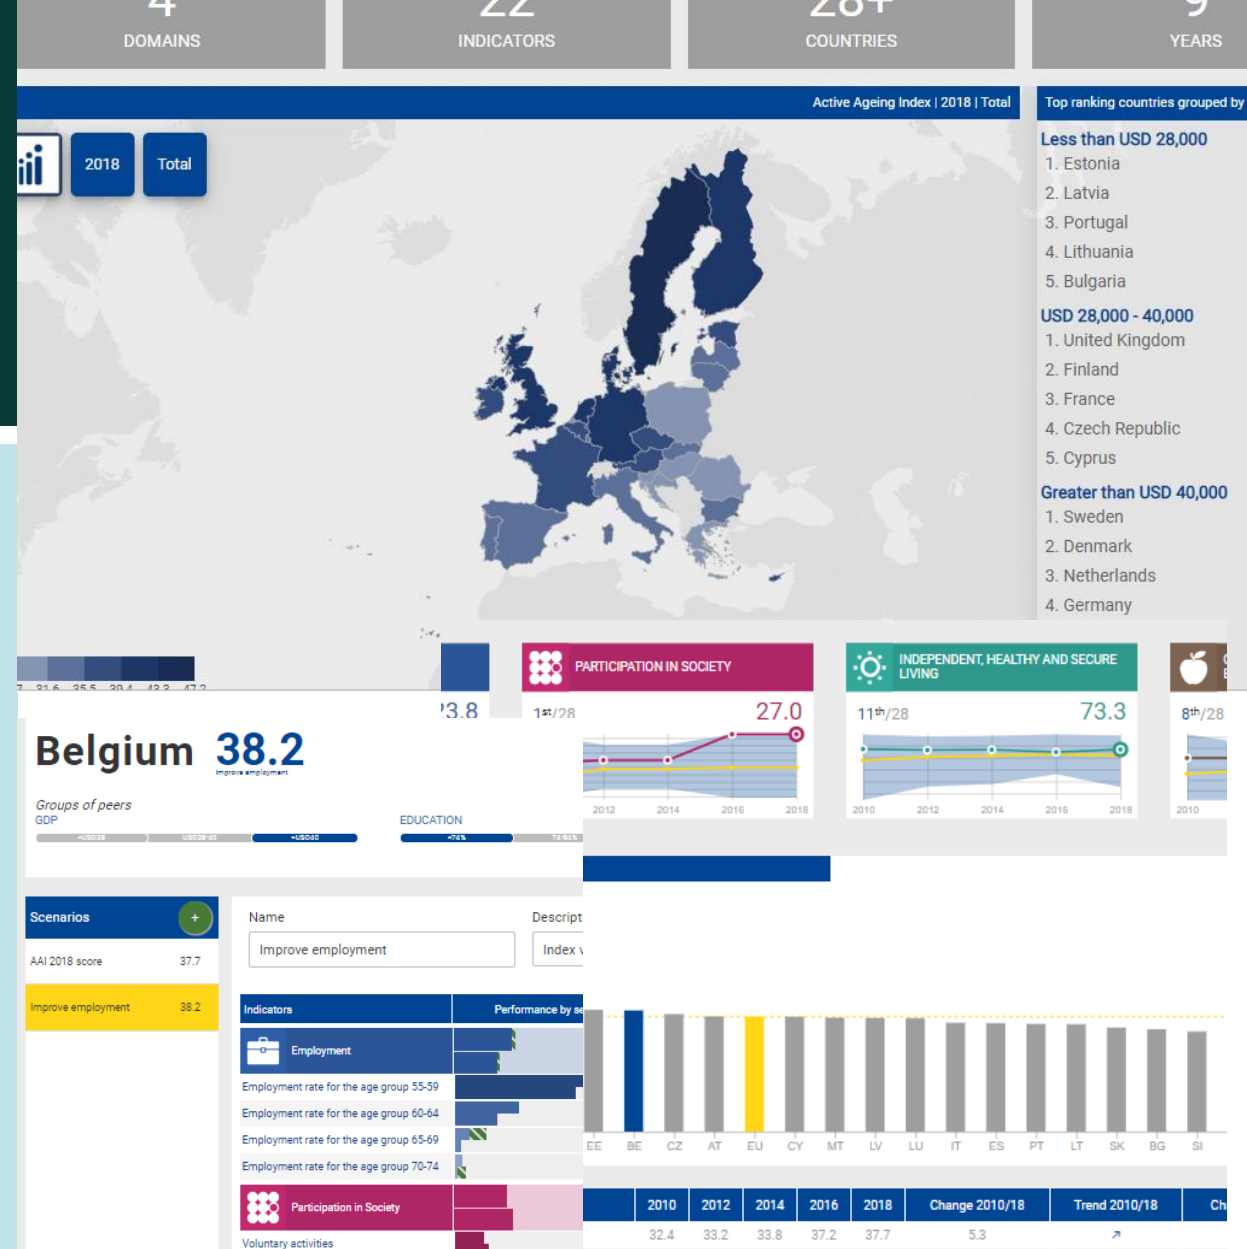

Composite Indicators

- Multidimensional entities
- Very rich on information
- Multiple layers of data
- Difficult to provide a complete view
- Risk of reducing its richness into one single number

Active Ageing Index Interactive Tool

- Provides visuals for multiple layers of information
- Catches the complexity of the index
- Story building – users creates their own stories
- Exploring and testing policies
- Adding countries/regions

Effective communication through visualization
