Main strategic orientations

HETS is at the cutting edge of social issues, professional practices, new forms of intervention and innovative responses to issues

- Digitalization / economy 4.0
- Aging population
- New social contract

Flexible training pathways / lifelong learning

- Pedagogical methods that improve Student autonomy (team learning)

Improving the framework conditions for research

- Securing funding sources
Some Key Projects

- Research on non-take up of social benefits
- World Social Work Day: collaboration project with UN, NGOs and IGOs, involving students
- CERIP: Center for clinical intervention and research in Psychomotricity. Involving master students in research and services to the community and partners
- Cooperation with developing countries: Morocco, Senegal, India, Palestine, Lebanon
HETS at the core of social issues
