<sup>1</sup> Prepared by Kåre Vassenden

The following table will help to the implementation of the recently revised recommendations on statistics of international migration

### FLOW OR MIGRATION DATA

For each of the following cells please give the potential data source in your country (e.g. population register, census, foreign register, survey...) and the body responsible for the data collection (Ministry of Interior, Justice, Education...)

Note if the time constraint is respected as described in box 1 on page 10 (3 months or 1 year)

Check if the whole population is concerned and specify all sub-population that are not included

Give an indication on the reliability of the data collection (e.g. good = more than 90%, medium from 50 to 90% or low below 50%)

## MIGRANT STOCK

For each of the following categories, please specify the potential data source in order to identify the number of persons or to estimate the volume of that stock  
 Check if the whole population is concerned and detect all sub-population that is not concerned (e.g. dependants and employees)  
 Please indicate the time of the year for each migrants stocks (e.g. 30th June, 1st December, 31 December).  
 Give an indication on the reliability of the data collection (good = more than 90%, medium from 50 to 90% or low below 50%)  
 Is there a systematic link between the data collection on migrants stocks and the related flow statistics ?
