ECONOMIC COMMISSION FOR EUROPE

STATISTICAL COMMISSION

CONFERENCE OF EUROPEAN STATISTICIANS

Fifty-fifth plenary session
Geneva, 11-13 June 2007
Item 4(h) of the provisional agenda

PROGRESS REPORTS

Database of International Statistical Activities in the UNECE Region /DISA/IP)
Year 2007

Submitted by the UNECE secretariat

1. The Database of International Statistical Activities (previously called Integrated Presentation) is a compendium of **statistical work** carried out by international organizations. The UNECE Statistical Division has been compiling the information at the request of the Conference since 1991. As of 2002, it is available on the web in a database format.
2. **The 2007 issue of the Database is available online.** It can be consulted at:
<http://unece.unog.ch/disa/>.
3. The statistical activities are divided into five main subject areas: demographic and social statistics; economic statistics; environment and multi-domain statistics; methodology of data collection, processing, dissemination and analysis; and strategic and managerial issues of official statistics. These are further refined and categorised under 55 sub-headings according to a classification adopted by the Bureau in October 2005.
4. Thirty-three international organizations (including city groups) have provided information on their activities for 2007. The information received from the contributing organizations has been collated, classified and checked for consistency.
5. If there are comments, questions or updates to the information available in the Database,

ECE/CES/2007/15
