

GLOBALISATION AND THE FUTURE OF ECONOMIC STATISTICS

ORGANIZED BY NORWAY, CANADA, FINLAND

DISCUSSION TOPICS

INTERNATIONAL COLLABORATION

GLOBALISATION HAS BEEN DISCUSSED FOR SOME TIME, AS IT DISRUPTS TRADITIONAL NSO PRODUCTION, IS CALLING FOR INTEGRATED APPROACHES AND COLLABORATIVE INTERNATIONAL METHODS. TO MAINTAIN QUALITY OF ECONOMIC STATISTICS INTERNATIONAL COLLABORATIONS IS EMPHASIZED

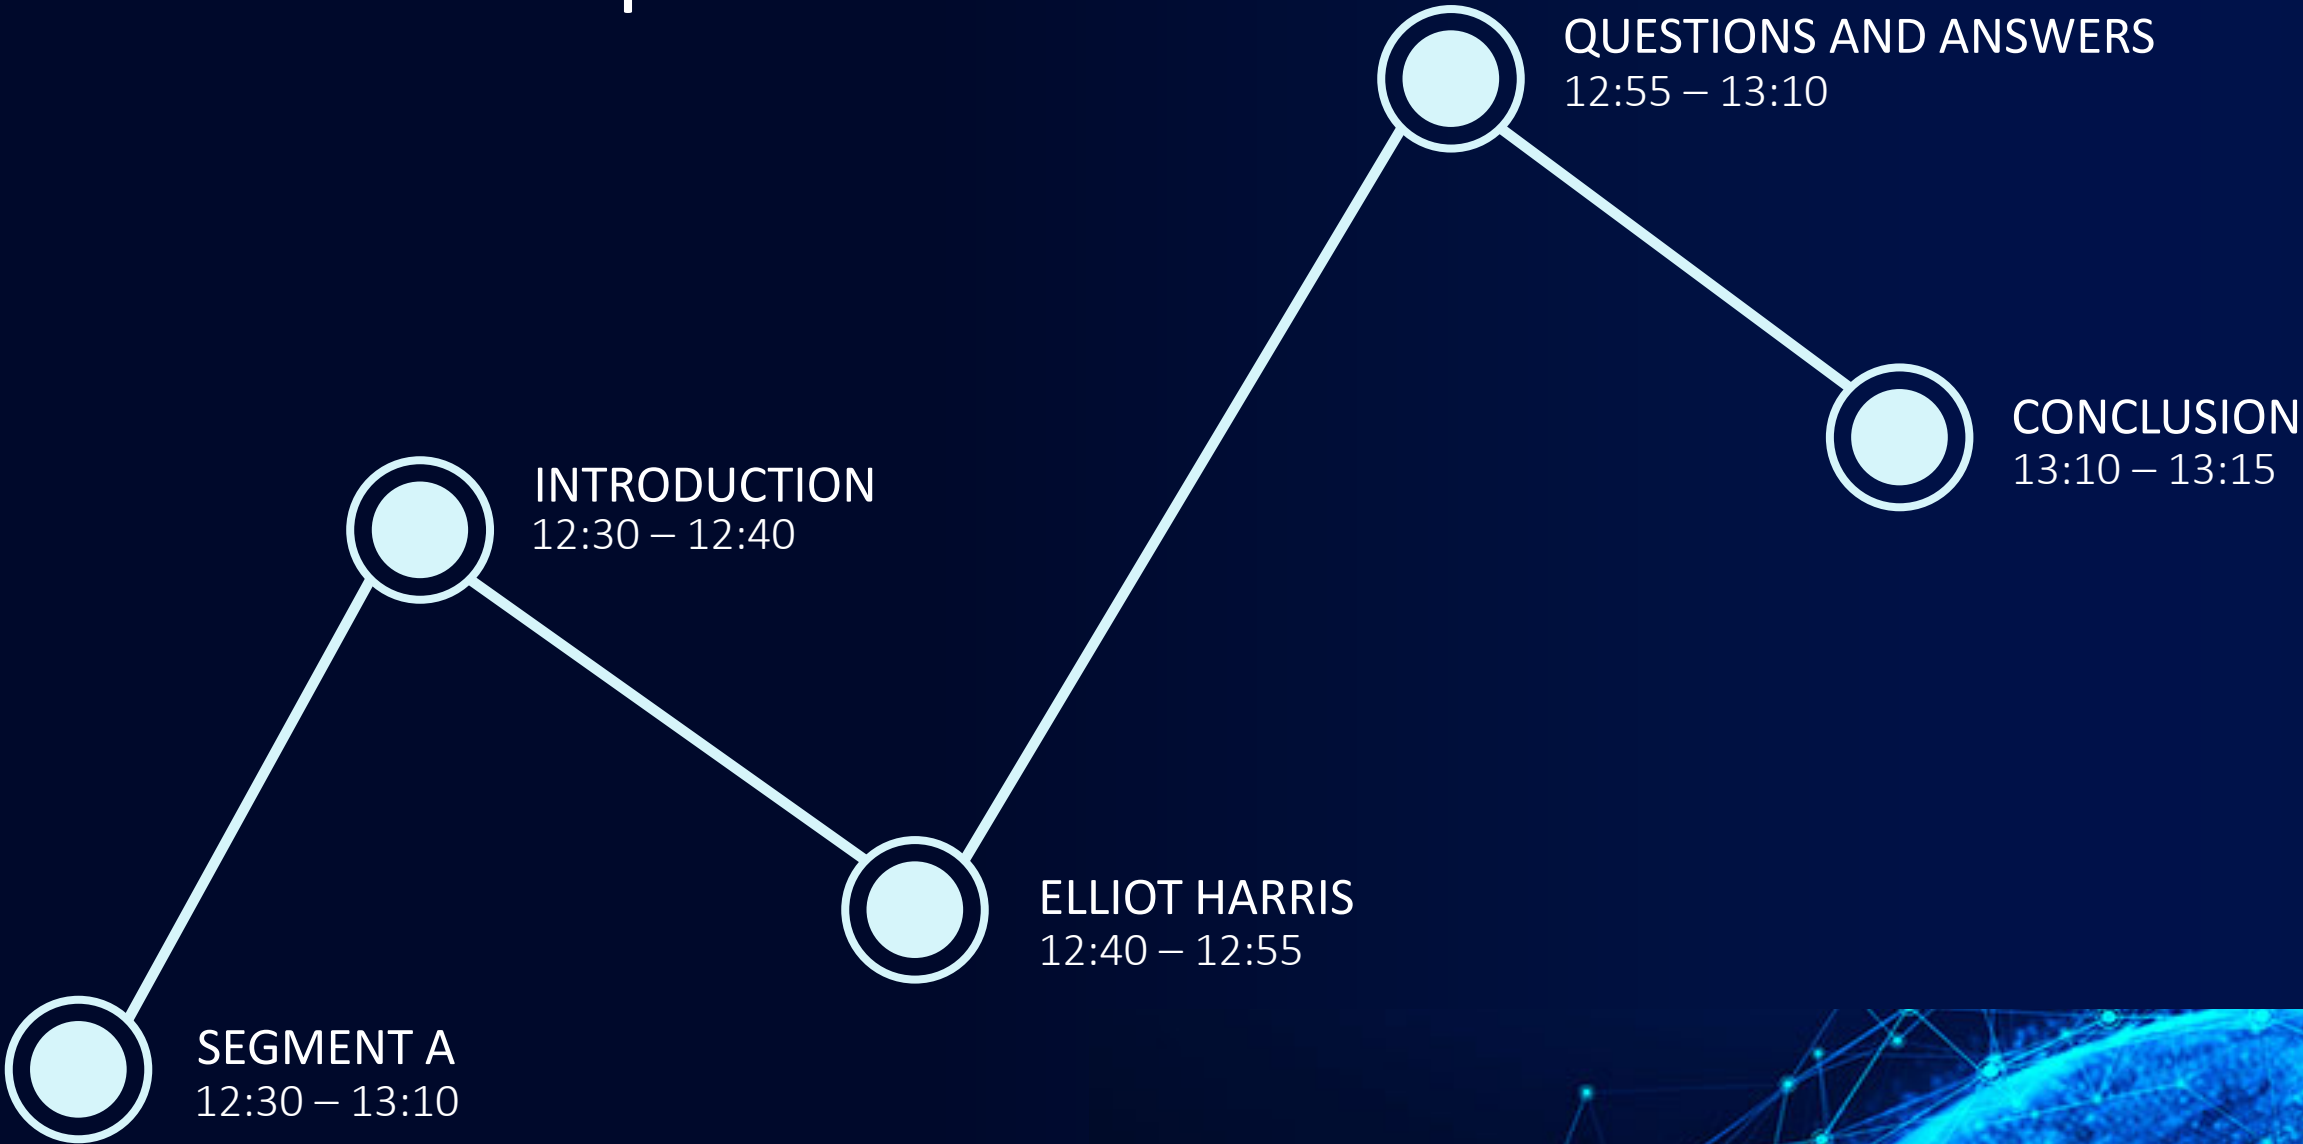

WHAT COLLABORATION AREAS SHOULD BE PRIORITIZED TO GUARANTEE THE QUALITY OF ECONOMIC STATISTICS AND QUICKLY NARROW THE GAP WITH USER NEEDS?

ARE WE AGILE ENOUGH TO ADAPT TO AN EVER CHANGING WORLD? WHAT DOES SUCCESS LOOK LIKE AND CAN WE GET QUICKLY THERE TO BUILD MOMENTUM?

IN A NEW COLLABORATIVE STRUCTURE, WHAT COULD BE THE ROLE OF INTERNATIONAL ORGANIZATIONS AND WHAT ROLE COULD THE CES PLAY?

EX: GLOBAL PROCESSING PLATFORMS, GLOBAL BUSINESS REGISTER, DATA / METHOD / CODE EXCHANGES, INTEROPERABILITY OF SYSTEMS, SHARING OF EXPERTISE, ETC.

SEGMENT B
13:15 – 14:00

INTRODUCTION
13:15 – 13:20

FRIEND OF THE CHAIR UPDATE
13:20 – 13:25

DISCUSSION QUESTIONS
13:25 – 13:55

CONCLUSION
13:55 – 14:00

COVID-19, INNOVATION AND SHARING BEST PRACTICES

THE PANDEMIC HAS HIGHLIGHTED THE IMPORTANCE OF PROVIDING TIMELY, RELEVANT DATA TO POLICY MAKERS AND HIGHLIGHTED CHALLENGES FACED IN THE GLOBAL ECONOMY. MANY COUNTRIES IN THE UNECE REGION HAD TO DRAMATICALLY CHANGE PROCESSES, PROCEDURES AND METHODOLOGIES TO RESPOND TO THESE DEMANDS – BYPASSING NORMAL PROTOCOLS AND OFTEN WITHOUT GUIDANCE.

HOW CAN INTERNATIONAL ORGANIZATIONS TAKE THESE NEW INNOVATIONS AND EMBED THEM INTO STATISTICAL STANDARDS AND OTHER GUIDANCE MATERIALS TO ENSURE BEST PRACTICES AND LESSONS LEARNED ARE MORE WIDELY SHARED?

BACK TO "NORMAL" IS UNLIKELY. NSOs HAVE PROVEN THEY CAN ADAPT QUICKLY AND PROVIDE DATA IN NEAR REAL-TIME. THERE WILL BE AN EXPECTATION THAT NSOs CAN MAINTAIN THIS SPEED AND FILL DATA GAPS QUICKLY.

THE NEW NORMAL

HOW CAN ORGANIZATIONS MODIFY THEIR WORKING METHODS **BEYOND TRADITIONAL MANDATES**?

HOW CAN NSOs TAKE ADVANTAGE OF THE "**NEW NORMAL**" TO MODERNIZE?

ARE THERE ANY **LESSONS LEARNED** FROM THE CRISIS THAT COULD HELP TO **REDUCE THE GAP** BETWEEN USER NEEDS AND WHAT DATA COMPILERS CAN PRODUCE?

DIMENSIONS OF SUSTAINABLE DEVELOPMENT

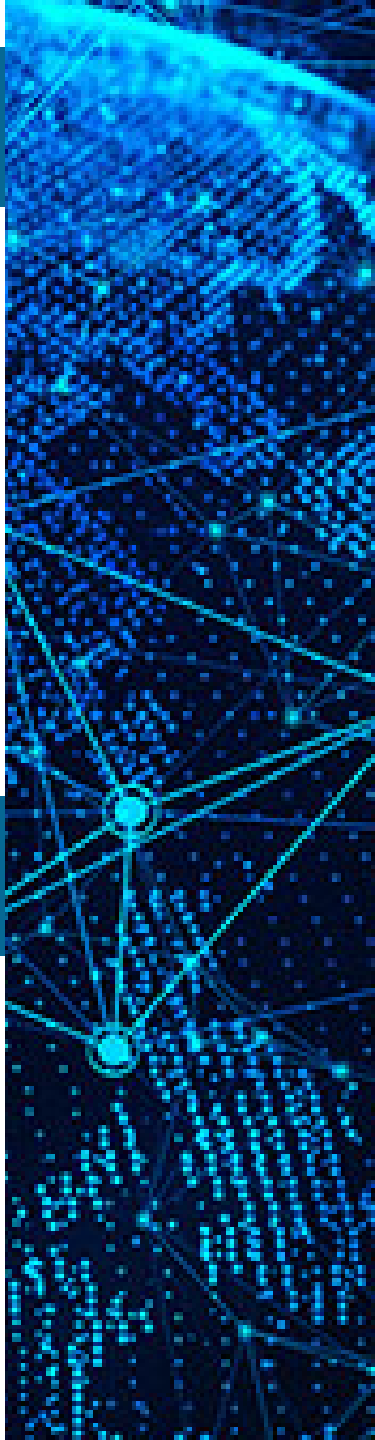

● INTEGRATED POLICY ANALYSIS REQUIRES INNOVATIVE DATA TO PROVIDE INSIGHT ON THE INTERLINKED NATURE OF THE ECONOMY, ENVIRONMENT AND SOCIETY.

● *WHAT ACTIONS CAN THE GLOBAL ECONOMIC STATISTICAL SYSTEM TAKE TO ENSURE ALL DIMENSIONS ARE CONSIDERED ALONGSIDE STANDARD ECONOMIC MEASURES?*

REGIONAL EFFORTS WHILE AVOIDING DUPLICATION

● REGIONAL COMMISSIONS PLAY A KEY ROLE IN PUSHING INNOVATIVE THINKING AND SHARING BEST PRACTICES BUT WE MUST ENSURE TO AVOID DUPLICATION.

● *WHAT SHOULD THE ROLE OF THE CES BE IN THIS AREA?*

UNECE COUNTRIES HAVE THE "LUXURY" OF HUMAN AND CAPITAL RESOURCES TO INNOVATE AND AFFECT GLOBAL CHANGE.

HOW DO WE HARNESS THIS IN A WAY THAT DEVELOPING COUNTRIES CAN BENEFIT FROM THE EXPERIMENTAL/INNOVATIVE WORK DONE TO MODERNIZE THE SYSTEM OF ECONOMIC STATISTICS?

HARNESSING INNOVATION IN DEVELOPING COUNTRIES

CONCLUSIONS

THANK YOU!
